## MITCHELL'S PLEA FAILS

### Motions to Free Accused Lost

Evidence Held Sufficient for Continuing Trial by Court-martial

Subpoenas Prepared for Witnesses to Testify Next Monday

(BY A. P. NIGHT WIRE) WASHINGTON, Nov. 3.—Prosecution and defense counsel battled to a tie today, with the court-martial trying Col. William Mitchell on charges of conduct prejudicial to good order and military discipline sitting as umpire, and finally adjourning the contest until Monday.

The prosecution, headed by Col. Sherman Moreland, scored first, when the court declined to free the accused on a motion by Representative Frank R. Reid, civilian defense counsel, who contended that not a scintilla of evidence of guilt had been presented against the accused.

The defense then scored its victory, the court deciding it should be permitted to call witnesses it believed necessary, and directing the prosecution to take immediate steps to proceed with the summoning of the long list of witnesses and the production of voluminous records from government files it had requested.

A compromise on the request to summon three Cabinet officers, Secretary of War D. H. Duggan, Secretary of the Navy, and Secretary of the Interior, was reached.

The court then adjourned until Monday, when the trial will resume. The defense will then present its case.

The trial is expected to continue for several days. The defense will then present its case.

## TOY-MAKERS PUT IN CALL FOR RUBBER

### Santa Claus Reported to be Negotiating for Needed Supply Here

(REUTERS WIRELESS) NOME (Alaska) Nov. 3.—Coinciding with Secretary Hoover's warning against foreign monopolies on raw products used by American consumers, Baltimore arriving here from the far interior of Alaska reports that Santa Claus's toy shop is suffering from a shortage of rubber from which to make balls, dolls, balloons and other toys.

So acute has the situation become at the Big Toy Shop located near the North Pole that Santa Claus is reported to be considering a move to the interior of Alaska to obtain a supply of rubber at a low figure. Even Santa Claus is reported to be figure on costs in making toys. The factory in question is reported to have on hand a large quantity of purchased before the price began to jump and expressed a willingness to sell to Santa Claus at a low figure.

The foregoing dispatch received by The Times is printed as possibly throwing some light on the controversy raised in the columns of this paper as to whether there is a Santa Claus. Although the dispatch doesn't say so, it is entirely possible that Santa Claus will send his speedy little reindeer down here if he needs some more rubber.

## VOTERS HIT SOCIALISTS IN BRITAIN

### Conservatives Fear of Menace Removed by Vote Throughout Nation

(BY CABLE AND ASSOCIATED PRESS) LONDON, Nov. 3.—Returns from the municipal elections in England and Wales yesterday show that the Laborites have regained many of the seats which they lost three years ago, but that the "Socialist menace" which the Conservatives feared has been held in check.

The elections were not conducted quite along party lines, because there were a number of issues in many districts, such as financing, housing and other local questions which appealed more to the average voter than political issues.

The incomplete returns today indicate that Labor has a net gain of thirty-four seats in London. The Laborites lost four seats at Battersea to the municipal reformers, who have twenty-five representatives on the Council against Labor's twenty-nine.

Return from the eighty large provincial cities and towns indicate that the Labor-Socialists made a net gain of forty-seven, while the Conservatives suffered a net loss of twenty-one. The Laborites won twenty-two, and the Independent four.

Shapurji Saklatvala, the Communist member of Parliament who was barred by the United States government from entry into that country to attend the Inter-Parliamentary Conference at Washington, was an unsuccessful candidate in St. Pancras. He was at the bottom of the poll.

## FORMER MILWAUKEE RAIL HEAD STRICKEN

(BY A. P. NIGHT WIRE) MILWAUKEE, Nov. 3.—Albert J. Eastman, former president of the Chicago, Milwaukee and St. Paul Railroad, is critically ill at his home here. He is known as the father of electrification in railroading. He suffered a relapse to today, when little hope was held for his recovery.

## LANDSLIDE FOR TAMMANY IN NEW YORK ELECTION

### Walker Swept in as Mayor Over Waterman by Huge Majority; Many Close Races in East

(BY A. P. NIGHT WIRE) NEW YORK, Nov. 3.—Senator James J. Walker was swept into the Mayor's office on the crest of a Democratic tidal wave in today's city election. He was leading his Republican opponent, Frank D. Waterman, by more than 350,000 votes from 2730 districts out of 3073 in the city. The vote: Walker, 658,851; Waterman, 305,789. Mr. Waterman conceded the Senator's election early in the evening and sent him a telegram of congratulations. The Democrats captured all the important positions in all five boroughs by substantial pluralities. They will have every vote in the Board of Estimates and an overwhelming majority on the Board of Aldermen.

## PAINLEVE TO CARRY ON

### Premier Survives Chamber Test

Peril-Beset Cabinet Given Vote of Confidence With Outline of Policies

War Debts Settlement Seen as Outstanding Problem Confronting France

(BY CABLE—REUTERS DISPATCH) PARIS, Nov. 3.—Premier Painleve's peril-beset cabinet, whose early fall has been predicted, survived its first test today when it won a vote of confidence, 221 to 118 in the Chamber of Deputies. The vote with its favorable margin of thirty-two came after the reading of the ministry's program for meeting the critical issues which confront the government.

The financial situation, with the devalued franc, the deplorable state of the army and the uncertainty of the renewed plan to refund the debt to America.

"No matter how great internal efforts are made, the franc will not be safe until we have concluded agreements regarding our war debts with the great friendly countries," the premier said.

Discussions of the negotiations began in London and Washington by the pre-electoral government with a desire to reach equitable agreements. "Financial problems are vital and must be solved," the premier said. "We cannot live indefinitely in economic instability, which menaces our external peace."

"Not one centime of receipts should be secured by inflation," he said. "We must have a system of taxation which will not be a burden on the people."

The Moroccan menace is completely removed, he said. "The Moroccan army is returning to France," the premier said.

## CHINA MOVE APPROVED

### Tariff Autonomy Plan Favored

Republic Agrees to Complete Abolition of Likin Before 1929

Conference Labors to Frame Interim Measures for Adoption

(BY CABLE AND ASSOCIATED PRESS) PEKING, Nov. 3.—All the powers represented in the Chinese customs conference today accepted the principle of tariff autonomy for China, and the American delegation laid before the conference a detailed plan for putting this principle into effect not later than January 1, 1929.

Spokesmen for Great Britain and Sweden, which hitherto had not definitely stated their acceptance of the autonomy principle, today announced their adherence to the plan.

China, through Dr. C. T. Wang, chairman of the autonomy committee, pledged herself to the abolition of the likin, except on interprovincial commerce, before 1929. Dr. Wang laying before the delegates a statement that "the government hereby declares that the abolition of the likin will be completed not later than the first day of the first month of the nineteenth year of the republic (1929)."

With the acceptance of the autonomy principle the chief labor of the conference are shifted to its second committee, charged with framing interim measures to be adopted prior to the coming into effect of the new tariff regime. This committee will meet Friday.

## AMERICAN PLAN

The American delegation, in presenting its plan, stated that it is prepared to authorize the immediate levying of a surtax of 2-1/2 per cent in addition to the existing general tariff of 5 per cent ad valorem, and as soon as the requisite schedule can be prepared, the levying of a 1 per cent surtax on luxuries. The Americans then are prepared to negotiate with the Chinese on the negotiations of such agreements as may be necessary for putting into effect other provisions of the Washington treaties regarding China.

Regarding its adherence to the autonomy principle, the American statement said the delegation is prepared to negotiate with the Chinese on the negotiations of such agreements as may be necessary for putting into effect other provisions of the Washington treaties regarding China.

Article one of the American proposal provides that the surtaxes mentioned in the plan shall become effective February 1, 1929, for the 1-1/2 per cent surtax, and July 1, 1929, for the 1 per cent surtax. The plan also provides for the removal of all tariff restrictions in the existing laws, and putting into effect a Chinese national tariff law.

Article two of the American proposal provides that the surtaxes mentioned in the plan shall become effective February 1, 1929, for the 1-1/2 per cent surtax, and July 1, 1929, for the 1 per cent surtax. The plan also provides for the removal of all tariff restrictions in the existing laws, and putting into effect a Chinese national tariff law.

## FOR NEW TREATY

Article three says that a new treaty shall be made containing the following provisions: 1. Three months after the treaty has been concluded shall come into effect a new tariff schedule as an interim measure and until autonomy shall become effective, which shall be at the rate of 5 to 12-1/2 per cent on imports, and at the rate of 10 to 15 per cent on exports.

2. From the same date the rates at the land frontiers shall be lowered to the same level as at maritime frontiers.

3. The increase of revenue derived from the above shall be used for the purpose of improving the land and sea frontiers.

## CITY OWNERSHIP JOLTED

### San Francisco Voters Overwhelm Proposal to Purchase Market Street System

(EXCLUSIVE DISPATCH) SAN FRANCISCO, Nov. 3.—San Francisco, on whose main street municipal and privately owned street cars run side by side, emphatically today against extension of municipal street-car ownership involved in the proposition for the city to purchase the Market Street Railway Company's system.

The voters, having had experience with service on municipally operated lines in direct comparison with those privately operated, decided that it was not worth the \$28,000,000 it was proposed to pay for the Market street system to have any more of the former.

Incomplete returns indicated a vote of nearly 1 to 1 against the proposition.

## SUPERVISORS TURNED OUT

Nine candidates of the "minority group" ticket for supervisors in the lead on the face of the incomplete semi-official returns from scattered precincts, according to the tabulation made by Registrar of Voters J. H. Zemansky.

The early returns were a big surprise in that the entire minority ticket jumped into the lead over the six incumbent supervisors who were running on the "majority ticket" for re-election.

Supervisor McSheehy topped all the candidates and Supervisor Ralph McLane, majority leader, in tenth place, was several thousand votes behind the leader. Charles F. Todd, lowest of the new candidates on the minority ticket, was 10,000 votes behind the highest vote of the incumbents.

McSheehy had the highest vote of the incumbents, and the majority ticket out.

## LEGAL WORK OF DRYS OUTLINED

Anti-Saloon Chief Tells of  
Legislative Aims

Steady Gains Asserted in  
Law Enforcement

Warns Wet Organizations  
Mobilizing Forces

(BY A. P. MONT WIRE)  
WASHINGTON, Nov. 3.—Parliamentary problems and legislative opposition, together with "confidence" inspiring achievements, have marked the record of the legal and legislative work in the prohibition movement during the past two years, Wayne B. Wheeler, general counsel of the Anti-Saloon League, declared in a report to be submitted Thursday at the biennial session of that organization in Chicago.

"The wet have blasted back after leak in the prohibition dam," the report says. "We have helped close them. We have given our aid to the adoption of new laws, the securing of court decisions and the support of administrative action in doing these things. It has been a uphill fight, but the fact that the wet have been less than the fact that we have moved up the hill steadily is a victory."

"No similar policy of government has ever shown a more rapid and sure way to the achievement of its purpose than the active opposition of the wet is significant testimony that the law is far from being a dead letter. Instead it is a red-letter law. The desperate ferocity of the opposition of the wet minority today is a testimony of the increasing effectiveness of enforcement. It is the empty beer can and the dry decanter that sounds so loudly when it is hit."

"We are winning all along the line. If we hold our front unbroken and leave no gaps which the enemy can break through to attack us in the rear, we will finish the task and crown the century and the concentrated labors of thirty-odd years with victory."

Recalling the things that have been done in the effort to dry up the country, Mr. Wheeler asserted the League's belief that whatever additional legislation is necessary to make the Eighteenth Amendment effective will be proposed with "confidence that a majority of Congress will adopt it."

**OUTLINE LEGISLATION**  
Legislation to be urged at the coming session of Congress is listed as follows:

To provide for the enforcement of the prohibition law by the federal government, and to provide for the enforcement of the prohibition law by the state and local governments.

## ENGINEER GIVEN VICTIMS' CHILD

Orphan Awarded by Jury to  
Pilot of Train Which  
Killed her Parents

(BY A. P. MONT WIRE)  
PORTLAND (Or.) Nov. 3.—Ryelyn Castle, 9-year-old orphan, whose parents and sister were killed when an automobile in which they were riding was hit by a train near Harborside last August, was made the daughter by adoption of the engineer of that train by a jury verdict today. The engineer, Harvey Carpenter, who was held blameless for the accident, had sought to comfort the child by giving her a home. An uncle appealed to the court. When the verdict was announced, Ryelyn put her arms around Mrs. Carpenter and then around Carpenter.

The next law that will be passed will make that liquor contraband, and the poor man of the country will turn in and help pass such a law," Mr. Wheeler said today in an address. He is here for the annual meeting of his organization which opens Thursday.

"The eighteenth amendment was not a rich man's law. It was no fault of the statute that the rich man had sufficient funds to stock his cellar before the act went into effect. He also has more diamonds and automobiles than the poor man."

Wheeler replied to the statement of former Gov. E. F. Dunne, that if Christ came to Chicago today and turned water into wine he would be jailed for violating the prohibition laws.

"If Christ came to Chicago, he would first of all obey the law. The ex-Governor's anxiety about the Master is pathetic. There is no danger that Christ would be a bootlegger. A Jew and the subject of the law is intoxicating. He would first of all obey the law."

"I challenge Mr. Dunne also to prove his statement that the prohibition law makes criminals out of good citizens."

The dry law leader said Congress should pass the law to allow each State to determine what percent of alcohol is intoxicating. Wheeler would result in chaos.

**RIFF PEACE**

Correspondent at Rabat  
With Krim's Proposition  
for French Authorities

(BY CABLE-REUTERS DESPATCH)  
PARIS, Nov. 3.—The Temps announces that the American newspaper correspondent, Vincent Sheehan, who has been in the Rif for some time, has been arrested by French authorities. He is accused of having been in contact with Krim, the leader of the Rif rebellion. Sheehan is being held in Rabat, Morocco, and is being treated as a prisoner of war. The French authorities are demanding that he be turned over to them for trial. The American government is protesting against this treatment of Sheehan, and is demanding that he be released immediately.

The publication of the pending series of articles by Sheehan, summing up the results of his two months' study of the Rif situation, is being delayed by the French authorities. The first of these articles will be published in Europe the latter part of the week, simultaneously with their appearance in America, by special arrangement with the North American Newspaper Alliance.

Sheehan, on his previous visit to the Rif area a year ago, came out with similar reports for Spain, which he presented to the Spanish government at that time.

**Medical Experts  
Testify Against  
ex-Klan Leader**

(BY A. P. MONT WIRE)  
NOBLEVILLE (Ind.) Nov. 3.—Three medical experts testified for the State today in the murder trial of D. C. Stephenson, Earl Klenck and Earl Gentry that blood poisoning, which followed injuries received in an assault attack on Stephenson last April 14, was the cause of his death.

Stephenson, former grand dragon of the Indiana Ku Klux Klan, and his two bodyguards, are charged with first-degree murder for an assault with a deadly weapon on Stephenson last April 14, which he presented to the Spanish government at that time.

Another count charges murder in connection with abducting her to Hammond and attacking her. Defense counsel previously had developed that Miss Oberholzer was given sedatives twice on March 28, the day she signed a dying declaration charging Stephenson and his aides with having abducted and attacked her.

**DISTASTE FOR STUDY  
DEPLORED BY LOWELL**

(BY A. P. MONT WIRE)  
NEW HAVEN (Conn.) Nov. 3.—President Lowell of Harvard University, speaking for the Association of American Universities, here, last night, deplored the lack of desire for intellectual development among college students, claiming that a better method must be found than the system of letting students choose their own courses. He said the students of today show far greater interest in athletics, competitions and other extra-curricular activities than in their studies.

**Fourteen Auto  
Loads Pay Toll  
to Bandit Gang**

(BY A. P. MONT WIRE)  
SAN FRANCISCO, Nov. 3.—Fourteen automobile loads of "highways" and "politicians" were grouped together by chance on the Twin Peaks Boulevard last night to see the lights of the city twinkle below them in the clear November dusk. Three young automobile bandits took full advantage of the opportunity and went through the fourteen cars, collecting more than \$200. Courteously enough, they refused to molest the women and girls of the caravan.

To block pursuit they threw away the switch key of each car. A shotgun squad was soon on the scene, but the bandits had fled.

## SCANDAL HITS PROPOSED DEMPSEY-WILLS BOUT

### ROB ROY BENTON QUILTS AS CHAMPION'S ADVISER

Charges Hurlled by Former Dempsey Aid Hit Kearns, Ray Cannon and Two 'Unnamed Conspirators'

Contenting that plans were under way whereby a violation of the contract for a Dempsey-Wills bout held by Floyd Williamson was to be achieved, and that he wanted "to get out before a thunderbolt falls," Rob Roy Benton started the boxing world with his charges here last night after announcing that he had severed his relations as publicity man and adviser of the world's champion.

Benton said that he had definite information that Ray Cannon, Williamson's attorney, was representing Jack Kearns, as well as Jack Dempsey, in the move to throw the Williamson contract overboard, and that the main purpose behind the move was to give Kearns at least two more Dempsey fights under the contract, he has with the champion, which does not expire until next August.

Benton said he was the skipper of the team which has discounted the Dempsey-Wills championship bout since the parties agreed to the title bout. Benton claimed that he could not say how the Williamson fight was to be achieved.

TWO OTHERS NAMED  
Benton also said that two unnamed "conspirators" were "in" on the so-called plot to throw the contract that provides for the Dempsey-Wills championship fight in 1926. The first of the "conspirators" was not named, but Benton said that the whole thing was a "hoax" and that he was bound to keep it to himself. He said that he was not a "conspirator" and that he was not a "conspirator" and that he was not a "conspirator."

### STUMBLING BLOCKS IN MARCH OF STANFORD TO COAST GRID TITLE

Here are three members of the University of Washington Husky football eleven, which tangles with the Card team in a crucial game at Seattle next Saturday. Upon the outcome of this game and the one the following week between California and the Huskies hangs the conference championship. At the top left is Harold Shidler, who tied up the game with California last year with a field goal in the last quarter. At the right is Elmer Tesreau, the plunging fullback, and at the bottom is a sophomore bulwark—Herman Brix—a fixture at tackle.

Oakland College Obstacle to Consider in Path of Big Elevens

(BY A. P. MORTY WIRE)  
OAKLAND, Nov. 3.—St. Mary's varsity hit a steady stride of hard practice today for what is regarded as one of its important games next Saturday, when the team lines up against the strong Multnomah Athletic Club eleven at Portland.

The little Oakland college, always presenting a difficult gridiron obstacle for other teams to hurdle, this year has developed into one of the threats of the Pacific Coast. But other games also have shown that the Saints are not to be regarded lightly. In defeating four other teams they have rolled up 140 points against a total for the opposition of 19 points.

### TUNNEY SPURNS GODFREY MATCH

(EXCLUSIVE DISPATCH)  
NEW YORK, Nov. 3.—Plans for a heavyweight battle between Gene Tunney, former American light-heavyweight champion, and George Godfrey, negro heavyweight, as the feature attraction on the annual Christmas boxing carnival in Madison Square Garden on December 15, today were abandoned. It was announced by the officials of the fund, Billy Gibson, manager of Tunney, declined the proffered match.

According to the fund officials, Gibson asserted Harry Wills is the only negro heavyweight whom Tunney will box.

"Thundering Herd" to be Officially Greeted in Assembly Today; Coach Howard Jones Praises Team; Broncos Next

Having been ruled "off-side" by the U.S.C. faculty in regards to its proposed welcome of the returning Thundering Herd from Idaho, the Trojan student body will officially welcome Coach Howard Jones and his charges in an assembly in Bovard Auditorium this morning, thus enhancing the partial demonstration occasioned by the arrival of the Lark and the footballers incensed therein, at the Central Station yesterday.

Starting this afternoon the local charges in the best shape for the contest. Jones was well pleased with the Idaho performances of his charges. The loss of Red Badgro, the classy little ball-hawk at end, was the only hair in the butter. Badgro suffered a broken arm, and will be out for the rest of the season, Dr.

### MUSHY FINISHES RIVAL IN THIRD

Right to Jaw Seals Doom of New Orleans Fighter

Southerner Takes First Full Count in His Career

Grandetta Decisively Whips Hood in Semifinal Go

BY PAUL LOWRY

Mushy Callahan moved up to the Big League last night. He did something that not even Benny Leonard could do. Nor Charley White. Nor Johnny Dundee. Mushy, the ex-newboy, knocked out Pat Moran of New Orleans in less than three rounds of fighting at Vernon. For the first time in his long and honorable career as a fighter, Pat Moran hit the canvas. It was a right square to the point of the chin that spelled curtains for Moran. It was a right that crashed with the fury of a tempest, on Moran's unprotected forehead. It was an underhand blow that traveled straight out from the chest. It was almost an uppercut, and it had the semblance of a hook to it.

OUT FOR GOOD  
Moran dropped like a stricken steer in a stockyard massacre. He lay inert on his face as Referee Benny Whitman started to toll off the fatal seconds. At the seven count he was feebly trying to pull himself together. At ten he was on his knees, but his physical reaction was behind his mental desire and he was unable to pull himself up to face the devastator who had laid him low with a punch. On the other side of the ring stood young Mushy, his hands on his hips, as he watched Moran struggle to rise. Confident Mushy had done what he expected to do, and he was satisfied. Moran finally arose, but fell again as he gained his feet and had to be assisted to his corner. It was the old story of "youth

### NAME OFFICIALS FOR BIG GAME

Badenoch, Earham, Griffith Also Work Tills

Quartet of Greatest Gridiron Arbiters Chosen

Eckersall to Officiate at East-West Classic

BY GEORGE SHAFER

An importation of the most renowned football officials of the Middle West will "work" the Southern California-Iowa game in the Coliseum Saturday, the 11th inst. The list of officials, announced yesterday by Geyron Wilson, faculty athletic director for the Trojans, includes: Walter H. Eckersall, a 111 Chicago referee. Frank Birch, Earham, umpire. Maj. John L. Griffith, Belmont, head linesman. J. A. Badenoch, Chicago, who is one of the best-known officials of big games in the Coast Conference, has been tentatively accepted by both schools as field judge. Eckersall, Ma. Griffith and Birch are three of the best known and most-sought football officials in the "Big Ten" western conference.

PICKS "A-1" TEAMS  
Eckersall is the dean of football writers of the Middle West. Ma. Griffith is athletic commissioner of the western conference. Birch hails from a famous institution, Earlham College of Indiana, where he is renowned as a gridiron giant, despite weighing only 150 pounds.

In Eckersall, the fans will see the man accepted to take over Walter Camp's mantle as names of all-American eleven. "Eckie" is one of the three most publicized football players in the past twenty years, the other two being Jim Thorpe of Carlisle and Red Grange of Illinois. In Eckie's heyday at Chicago, which included four years of football play, 1923 to 1926, he was the

# Feminine Golfers Start Qualifying in Hollywood Invitation Tourney Today

## FAST FIELD IN ANNUAL CLASSIC

Local Stars Clash for Medal and Net Honors Today

Eight Flights in Two Match Rounds Tomorrow

Laurel Canyon Best Route to Hollywood Club

BY BILL WISE  
More than 100 women golfers, members of the Hollywood Golf Association, will start qualifying this morning in the Hollywood club's invitation tourney.

Low slip-four scores, in flights of eight each, will play first round matches tomorrow morning and second round matches in the afternoon. All flights will play with handicaps and finalists will meet Friday.

Contestants in the last flight will find themselves competing for trophies identical with the one to be awarded in the first flight. All flight trophies are of the same value, offering a chance to all players a chance to shoot at silverware on a par with that of the leading flight. Special low gross and low net trophies will also be awarded to winners in the 18-hole medal qualifying play.

This year's feminine classic promises to be one of the most on the auxiliary program. The Hollywood course is in fine shape, and some good scores should result. Entrants are advised to use the Laurel Canyon route to the club, avoiding the traffic congestion on the Chahuenga Pass road. Flight pairings will be published in these columns tomorrow.

## SCANDAL HITS TITLE BATTLE

That the situation was getting hot for me, that it looked like a conspiracy to me, and that I did not want to be connected with any enterprise of this kind.

MULLINS INQUIRY OF CHARGES  
[BY A. P. MURPHY WIRE]  
NEW YORK, Nov. 3.—No reason for the possible withdrawal of either his negro challenger, Harry Wills, or of Jack Dempsey, the champion, from their contract to fight for the heavyweight championship under the promotion of Floyd Fitzsimmons next year could be given by Manager Fitzsimmons tonight.

"If Rob Roy Benton, Dempsey's secretary, is causing the champion's employ because he expects the agreement to be broken, I am sure he knows where to find a move that I do," said Mullins. "Wills and I have no excuse to withdraw, but I have heard from Dempsey lately, but of course I expected he would stand by the agreement and fight Fitzsimmons. If trouble has developed, I have not heard about it."

## Griffin Doles Out Lacing to Vic Morrison

[BY A. P. MURPHY WIRE]  
FRESNO (Cal.), Nov. 3.—Mason Griffin, San Francisco southpaw, tonight says Vic Morrison, Oakland welterweight, is lacing in the ten-round which featured the San Juan A. C. card. Aside from the eighth round Morrison dropped Griffin for a five-count, the southpaw had the edge. Morrison had Griffin badly hurt, but could not finish him. Morrison weighed 122 and Griffin 145.

Big Mitch, who had been stopped by Joe Davis of Los Angeles, in the second of their scheduled six-round go, splattered the Indian all over the premises in the first, having him on the floor four times, twice for a nine-count. Davis' seconds saved him further annoyance by tossing in the towel in the second after twenty-five seconds had elapsed. Davis was fabby round the waist and in no condition to battle.

Joe Vargas, Fresno lightweight, continued his string of victories by beating Cal Nelson of Oakland in their six-round bout.

## Miss Hosmer Engaged to Alfred Chapin

[RECEIVED WIRE]  
MEXICO CITY, Nov. 3.—Yesterday was William M. Johnston's birthday and he celebrated the occasion first by taking the tennis world by surprise.

Johnston was requested to announce the engagement of Miss Charlotte Hosmer of California, to Alfred Chapin of Springfield, Mass. Miss Hosmer is a California girl who has made a great name for herself in tournaments all over the United States. Chapin is also famous as a racket star, having been a prominent contender in tournaments in the East during the past season. He was eliminated in the round before the semifinals by Harry Snodgrass in the tournament just completed here.

The American stars who have played in the matches here during the past week are leaving for the United States tomorrow on board a special car. The celebrity of them are going to California.

## CARDINAL TONNAGE

Stanford University football team weighs 100 pounds. Out of 40 men on Coach Warner's squad, 15 are backfield candidates, and 25 linemen. The total weight of the backfield is 2435, and of the line 4854. The average weight of the entire squad is 175 pounds, and the backs average 175 pounds and the linemen 185.

## COMING EVENTS

BY FEG MURRAY

HERBY HAYES  
40 STAY

BUD FOWELL  
FORMER PENN. LAFAYETTE, AND NAVY COACH, WHO IS NOW IN CHARGE OF THE N.Y. GIANTS

Another week-end approaches with a fine assortment of prize football packages. Look over the assortment and take your pick, for there are intercollegiate and sectional battles of rare merit. Among the former are the Yale-Maryland set to be played at New Haven, the Boston College-West Virginia struggle at Boston, and the Penn. State-Notre Dame battle at State College. That Maryland will be no set-off for the Bulldogs was proven by her 18-0 defeat of Rutgers, and the clash between Benedict and Hockney's warriors will be worth going miles to see.

The pop-eyed football fans of the East will be all agog over the first of the "Big Three" games, Princeton meeting Harvard at Princeton. Johnny Harvard hasn't forgotten that 34-0 triumphing he took from the claws of the Tiger last year, and with Major Daly's assistance at Cambridge this fall, the result should be much more favorable to the Crimson.

The Dartmouth-Cornell game is another choice morsel in the East, while out in the Big Ten region there are three or four contests that promise many thrills. Chicago tries for the last time to stop the famous Grange—this time at Champaign; Northwestern, with Baker, will attempt to hold the strong Michigan team; while Iowa meets Wisconsin at Iowa City.

And so it goes all over the country; everywhere are games of great importance in sectional ratings. Stanford's Stanford team beat Bapghaw's Washington Huskies in their own back yard? Will U.S.C. now under Howard Jones, beat little Santa Clara more than Stanford and California best? Can Vanderbilt stop the Golden Tornado? Will Baylor beat Texas? Oh, to be everywhere at once!

## LONDOS TRIES FOR TITLE

Gets First Chance at World Heavyweight Crown in Match With Stecher Monday

Jim Londos is one of the best read athletes in the world, but just at present is devoting his time to penmanship. Londos has spent more than ten years in an attempt to learn to write a simple phrase. He is confident that in the next week he will have mastered the most difficult task of his career.

He is trying to write this sentence: "Jim Londos, heavyweight champion of the world."

World's physical energy have been expended by the Greek heavyweight in his efforts to earn the right to this sentence. For more than ten years the "Giant-Killer" has been meeting opponents in his campaign to force himself into a match for the world's title and Monday night will give him his first chance to win the title.

The Greek firmly believes that this is his golden opportunity. He hopes that Stecher, heavy champion of the world, is fast fading as a great wrestler and that the time has come when a young, strong, and powerful wrestler, like Londos, will grip the crown of the brow of the veteran Nebraska.

Stecher has never been remarkably efficient with his arms, but has won victories in the most super-efficient manner in which he has long, powerful legs around the waist and in no condition to battle.

Joe Vargas, Fresno lightweight, continued his string of victories by beating Cal Nelson of Oakland in their six-round bout.

## ACE SET FOR O'DONNELL

Hudkins Announces He'll be Ready for Johnny in Friday's Hollywood Legion Main Bout

Ace Hudkins is going through with his fight at the Hollywood American Legion Stadium Friday night. This news was handed to Tom Gallery last night by Clyde, Ace's brother, who handles his brother's business.

"We don't want the public to think that Ace is dodging Johnny. That isn't it at all. Ace has been troubled with boils and just as soon as the doctor told Ace he was in shape to go through with his Hollywood contract we phoned Tom Gallery." This is the statement Clyde Hudkins broadcasted in cauliflower alley yesterday.

The Hudkins-O'Donnell fight is a very much-talked-of affair in boxing circles. The boys who do fight don't think that Ace has any soft job on his hands and it wouldn't be at all surprising if O'Donnell's hand were raised.

Tom Gallery, Hollywood match-maker, has been carefully watching the victory today. Al Bailey, hard-plunging and fast, will be in the line-up today, making his first start since breaking his right arm in the City League clash with the Lincoln midlets this afternoon on the Mechanics field.

## MIDGETS TANGLE TODAY

Coach Ralph Jenson's Polytechnic lightweight, who with Franklin and L. A. High are the only undefeated eleven in the City League, clash with the Lincoln midlets this afternoon on the Mechanics field.

The Mechanics, who smothered the Lincoln team by a three-touchdown margin, are favored to gather their third straight victory today. Al Bailey, hard-plunging and fast, will be in the line-up today, making his first start since breaking his right arm in the City League clash with the Lincoln midlets this afternoon on the Mechanics field.

The game was originally scheduled for tomorrow, but was moved up a day because of tomorrow's Lincoln-Poly variety clash at the Coliseum.

## WORKMAN SIGNS WITH ALL-STARS

Hope Workman, whom California grid fans will remember as the fiery little quarterback on the Ohio State team, has signed to play for the All-Stars in the Rose Bowl one New Year's Day, in the latest addition to the crew of All-Star griders that Tuffy Conn will wind up against the U.S.S. Melville, Pacific Fleet ship, at Pasadena, Armistice Day.

Workman, an All-American, is now coach at Redlands California conference. He has started work with Conn's crew, and appears to be in shape for a lusty battle. The Stars are working out each Tuesday and Thursday evening at the service station of Bill Blewitt, at Santa Barbara and Hoover streets.

must be served. But Mushy embellished his version of the adage. He was all right in the first and second rounds, left-handing him and pounding in rights to the body.

In the third round Callahan maneuvered Moran into a neutral corner, snatched a couple of trunks, and then as Moran backed into the ropes he whipped in the right which finished the fight and the gallant Moran. The end came after two minutes and forty seconds of fighting in the third round.

Frankie Grandetta never fought a better fight in his life than he did in the third round. He was the Pasadena favorite, in the six-round semi-win-up. Frankie beat a tattoo of lefts on Moran's face and pounded home rights to head and body that piled up many points in his favor. He was a real something of an expert, for Hood had been upped to win, and had kept a contingent of fans waiting for him.

In the 180-pound brawl of the evening Benny Touchstone and Pat Freeman battled one another for six rounds and knotted things up so badly that Frank Holmhorst stepped in to break the draw.

Though Benny had the verdict by one belt, but Pat's belts in the first round were the ones that landed him on even street.

Another of George Blake's boys, Aug Gotto, national amateur bantamweight champion before he turned professional, turned in a victory when he bested tough boy in Al Neff. Gotto whanged away at Neff's head and kept his nose in the air all through the fight.

The curtain raiser between Frank Lee, substituting for Sailor, and Joe Garcia, regarded in a draw after four rounds of considerable action.

Bob Shawkey was a dandy, one of the best Jack Doyle has had for some time.

## CARD PAIR OF SOCCER TILTS HERE

Hollywood Expected to Win from Thistles; L.A. A.C. to Meet Vikings

Heading the pack-by a scant but valuable two points, the Hollywood A. C. is not likely to lose its advantage when it meets the Thistles in the first game of a double-header on the Hollywood Soccer Field next Sunday. While giving due measure to the noted improvement in the playing standard of the Thistles and to the reports that one or more star players have been signed up in an endeavor to put more dash and pep into the team, still it is hardly likely that they will prove strong enough for the movie soccer boys.

In the second half of the twin bill, the Los Angeles Athletic Club will clash with the Vikings. This game will be the feature event of the day and should be keenly competitive.

Following their disastrous reversal last week, the champions reported mending their fences and are anxious to get back in the good graces of their followers.

## GRIZZLIES TOO CONFIDENT

Is Handicap to Spaulding Eleven for Game With Redlands; Oxy Should Beat Caltech

Overconfidence wrecked the local University of California's chances for an undefeated conference season and unless something happens to turn the cockiness out of Coach William Spaulding's charges, Hogs Workman's Redlands eleven is apt to turn the same trick the waterfowl put over a month ago. Caltech is also looking for victory against the Oxy Tiger, when the two teams battle in the Pasadena Rose Bowl.

The Branch squad arrived here, the Branch field-goal expert, will have a worthy opponent in the Grizzlies who will be sorely handicapped as Pauley will be out of the line-up and Julius Jaup, the only other punter, has a badly smashed hand.

"Griz" Brienbach is given a great deal of credit for the Grizzly showing against the Saints. His passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach. However, those who were witnesses of the Post-Branche tangle will recall the last-minute passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach.

Coach Spaulding is a strong believer in the psychology of the underdog and the sure-winner. Yesterday afternoon the Grizzly tangle with the Saints, his passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach.

Both fighters can hit and end it all with eye socks. Punchers are the boys the fans like and they have a pair of them in Hansen and Wilson. Another shot that will get over big is the Johnny Godinez-Aiki Akol bout. This is for six rounds and a rematch. The pair fought six weeks ago and turned in one of the most sensational victory today. Al Bailey, hard-plunging and fast, will be in the line-up today, making his first start since breaking his right arm in the City League clash with the Lincoln midlets this afternoon on the Mechanics field.

The game was originally scheduled for tomorrow, but was moved up a day because of tomorrow's Lincoln-Poly variety clash at the Coliseum.

## OBSERVATIONS

BY THE INNOCENT BYSTANDER BILL HENRY

WHEN the Trojans tangle with Santa Clara next Saturday they will be meeting a team with a real defense. The Bronchos are a tight, well-coached outfit, who have had a heavy emphasis placed on a strong defense from the very start of the season. They have not done so much in an offensive way, but they are gradually improving that branch of the game, and they will undoubtedly make a very entertaining afternoon for the all-conquering local hogs—much more so than Idaho did. The Bronks won't go to pieces on the defense, will tackle hard, and if they ever get within scoring distance will ring the bell either by means of a touchdown or the untimely death of Little Mokes, the quarterback.

The Bronks have a good record. They lost to California, 28 to 0, in the first game of the year. Stanford beat them, 20 to 0. After that they went down to Fresno State and won, 6 to 0, their first sign of offensive power. They then began to look better when they held the Olympic Club to a very close score, much better than either Stanford or California did, and actually made a touchdown on the last play. They have shown a very consistent improvement with each game, and are saving splendid material, they figure to get to be pretty blamed good about this time of the year. There's a game well worth seeing.

It might be interesting to some good folks to know that when Mr. Claude Turkey of Occidental pulled a "Layden" on Whittier last Saturday by intercepting a forward pass and running about seventy yards to a touchdown, he did what Stanford couldn't do. The play was a exact duplicate of the U.S.C. pass from Cook to Drury which the Cards had so much trouble in solving. It was the play on which Elliot scored the lone Trojan touchdown against Stanford. Evidently Mr. Calland saw it and liked it, but he probably doesn't like it quite so well now. The figures showed improvement in every branch of the game over their last display against the Grizzlies.

Has anybody stopped to think that although Pomona has had the most disastrous season in all its history on the gridiron, the Sagehens are laying the foundation for one team of unshakable toughness next year? Having no veterans, Mr. Utson is taking a leaf out of the book of Sid Nichols, who last year benched his varsity and organized a team of sophomores. As we recollect it, Manilla, Neher, Patterson, Cook, Morris, Archibald, Malach, Naitland and pretty nearly all of the other Pomona regulars this year are leftovers from last year's fresh outfit and hence have a couple of years more to play together. And they're getting to be far from rotten right now.

## IOWA TICKET SALE OPENS

Public Gets Chance at Hawkeye-Trojan Pasteboards Today; Invaders' Trip Plans Announced

General sale of tickets for the big Southern California-Iowa Intercollegiate football classic at the Los Angeles Coliseum November 21 will be opened today.

The main ticket booth is located in the B. H. Dyer Company store at Seventh and Olive streets. Choice pasteboards in all sections of the stadium will be available to early comers.

Indications are that this game will result in complete sellout as the advance disposal to U.S.C. alumni, undergraduates and Iowa students is the greatest in the history of the institution.

The Coliseum will be able to seat close to 80,000 persons and expectations are that that many will be fortunate enough to be in the spectacle.

Complete data on Iowa's tangle across the continent were revealed on the Friday before the game. Hawkeyes will leave Iowa City in a special train over the Rock Island line on Tuesday evening, November 17. A half-hour drill will be taken during the short stop at Hutchinson, Kan. Then the boys will re-embark, with the next stop Thursday afternoon at El Paso, Tex., for a one-hour practice.

The team pulls into Los Angeles at 2:15 o'clock Friday afternoon, the day before the game. The Hawkeye party will be met here by great U.S.C. reception, perhaps the most novel thing ever attempted on the Coast.

The entire university student body, old grads and others will take part in a gigantic celebration on the Friday before the game in honor of the invading host. The Iowans will leave on the 10:30 a.m. train Sunday morning for home, going by way of Cheyenne and Denver.

"Ducky" Grant, flashy back, will not get into the game on account of injury, but is making the trip. His place will be taken by Koomer.

The Jaktland squad will leave for Portland tomorrow night.

## QUAIL SEASON WILL OPEN IN DECEMBER

Contrary to the belief of some members of the Los Angeles shooting fraternity, quail season will open on December 1, next, instead of the 1st inst., as it did last year. In the State of California quail season in November is only open in district 14. Faulty hunting guides are partially responsible for the confusion, and last year's season opening a month earlier has made for trouble.

"Red" Grange, the peerless wonder, may not play in the New Year's Day game at Pasadena, but he will see it anyway. Local members of the active chapter of Zeta Psi, to which "Red" belongs at Illinois and alumni members, got together at a meeting at the University Club yesterday and voted to buy the mighty Grange a round-trip ticket to Pasadena to view the annual New Year's Day struggle. Wendell Kinsey, secretary of the alumni association, announced the decision of the fraternity, which is locally represented at the University Branch and has chapters at Stanford and California.

"Red" Grange, the peerless wonder, may not play in the New Year's Day game at Pasadena, but he will see it anyway. Local members of the active chapter of Zeta Psi, to which "Red" belongs at Illinois and alumni members, got together at a meeting at the University Club yesterday and voted to buy the mighty Grange a round-trip ticket to Pasadena to view the annual New Year's Day struggle. Wendell Kinsey, secretary of the alumni association, announced the decision of the fraternity, which is locally represented at the University Branch and has chapters at Stanford and California.

Caltech started gunning for Occidental when the Tiger was a contender in the championship and the Engineers have never lost the habit of pointing toward the West. Coach Hansen has been weak so far this year, but "Fox" Stanton is putting extra work in his team and expects to turn out a team capable of giving Occidental a battle. The "Big Game" is the first real taste of victory and will be in no mood to be trifled with. The Occidental team has taken a hard lease on life and Miankin is working at top form. It should prove a great game with the Tigers favored to win.

## GRIZZLIES TOO CONFIDENT

Is Handicap to Spaulding Eleven for Game With Redlands; Oxy Should Beat Caltech

Overconfidence wrecked the local University of California's chances for an undefeated conference season and unless something happens to turn the cockiness out of Coach William Spaulding's charges, Hogs Workman's Redlands eleven is apt to turn the same trick the waterfowl put over a month ago. Caltech is also looking for victory against the Oxy Tiger, when the two teams battle in the Pasadena Rose Bowl.

The Branch squad arrived here, the Branch field-goal expert, will have a worthy opponent in the Grizzlies who will be sorely handicapped as Pauley will be out of the line-up and Julius Jaup, the only other punter, has a badly smashed hand.

"Griz" Brienbach is given a great deal of credit for the Grizzly showing against the Saints. His passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach. However, those who were witnesses of the Post-Branche tangle will recall the last-minute passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach.

Coach Spaulding is a strong believer in the psychology of the underdog and the sure-winner. Yesterday afternoon the Grizzly tangle with the Saints, his passing attack "Scribe" attempted. Only three passes were completed out of some twenty-two hurried and Brienbach.

Both fighters can hit and end it all with eye socks. Punchers are the boys the fans like and they have a pair of them in Hansen and Wilson. Another shot that will get over big is the Johnny Godinez-Aiki Akol bout. This is for six rounds and a rematch. The pair fought six weeks ago and turned in one of the most sensational victory today. Al Bailey, hard-plunging and fast, will be in the line-up today, making his first start since breaking his right arm in the City League clash with the Lincoln midlets this afternoon on the Mechanics field.

The game was originally scheduled for tomorrow, but was moved up a day because of tomorrow's Lincoln-Poly variety clash at the Coliseum.

## WATER TITLES TO BE DECIDED

Coast Stars Meet Tonight at Hollywood A.C.

National Junior Relay Has Five Teams Entered

Four Youths Are Signed in Breast Stroke Dash

With one national championship and one Southern California title at stake, the Hollywood Athletic Club's open swimming championship meet, with numerous of the best known water splashers on the Coast entered, will take place tonight in the club's tanks at 1:15 P.M. Coach Clyde A. Swendsen has been blessed with a flock of fifty talent and the meet promises to produce some startling results.

Five Junior swimming teams have entered the 400-yard nation-wide indoor championship dash. These are the Hollywood Athletic Club, Pasadena A. C. & C. C., San Diego Rowing Club, Venice Plunge Swimming Association and Ambassador Hotel Swimming Club. Each organization is represented by well-known sport artists and a fast mark is looked for.

In the 150-yard breast stroke for boys 16 years and under for the Southern California A.-A.-T. title, four have signed to compete. The Hollywood Athletic Club boasts of three of the best starters and seems a cinch to walk off with major honors.

Such well-known stars as Reggie Harrison, Chubby Shields, Les Jarvis, Tom Drummond, Dody Blewitt, Caddy Cunha, Kathryn Ulrich and many others are to compete in the affairs tonight. The complete list of events and entries is as follows:

100-yard freestyle, men: Albert Zirkow, Hollywood Athletic Club; Fredrick J. A. J. # Billy Bonillas Gets Big Test Against Pete Sarmiento Tonight

**"SHE LOVES ME! SHE LOVES ME NOT!"**

That's the little song "Pinwheel Pete" Sarmiento gaily sings as he plucks daisies to the tune of his dreams about the bantamweight championship of the world. "Pinwheel Pete" meets Billy Bonillas, the "Terror of the Sticks," at the Olympic Auditorium tonight, then Bud Taylor two weeks hence and finally hopes to induce Champion Phil Rosenberg to wrestle between the ropes with him.

## FLEET SPORTS POLY, LINCOLN TEAMS CLASH

**Van Pelt Says Ralliplitters Will Give Mechanics Tough Battle in Coliseum Scrap Tomorrow**

By Robert Ray

Just where do they get that stuff that Poly's favorite over "Lincoln" asks "Rajah" Van Pelt, husky coach of the Ralliplitters, in reference to tomorrow's City League struggle at the Coliseum. "I'll admit it's going to be a tough game, but what's that got that we haven't got? It'll be no walk-away."

All of which indicates that Poly's secondary defense may find fans who journey out to the Coliseum tomorrow will get their money's worth with interest, providing they're interested in prep football. The Poly-Lincoln fracas bringing together two of the three unbeaten eleven in the City League, ranks second in importance only to the Poly-L.A. High Turkey Day clash, and will eliminate either the Mechanics or Ralliplitters as contenders for the championship.

The Ralliplitters have a double reason for wanting to thump their "friends" from Polytechnic, which are, reading from left to right:

- (1.) They want to win the championship, and to do so they must defeat the Mechanics.
- (2.) They want revenge for the manner in which the Blue and Gold outfit has won from Lincoln in the past two seasons.

WERE LUCKY

In explanation to reason No. 2, the Ralliplitters don't believe that Poly should have won the Lincoln games either in 1923 or 1924. Two years ago, with the score tied and only a few minutes to go, Cody intercepted a forward pass and raced fifty yards to a touchdown that allowed Poly to win 13 to 6. Last fall, with the score standing 7 to 6, in favor of Lincoln, a single three minutes to go, the Mechanics started a rally that culminated in a touchdown that brought victory in the last six seconds of play. That defeat robbed the Ralliplitters of the championship, which was won from Lincoln by the latter's victory in history, latter events proved. Had Lincoln won and Poly attained tied 13 to 6, as it did on Thanksgiving Day before \$7,000 fans, it would have left the Ralliplitters with the only clear slate in the league. Consequently Lincoln would have been awarded the championship. So it is seen that the Ralliplitters have a couple of real reasons for wanting to bump off the Mechanics.

Lincoln's line this year is just as strong as it was last season, and the ends are stronger. Only in the backfield are the Ralliplitters weaker than they were last year. The loss of Milt Nolan and Ralph Lampe was a tough one, but in Evo Pustich, Coach Van Pelt and Nite have a rambler who is pure poison once he gets out in the open. Evo should give the Mechanics some trouble and the

## STANFORD OFF FOR SEATTLE

**"Have Chance to Win," Says Warner as Cardinals Leave for Conference Grid Feature**

BY WILL FREDERICKS (EXCLUSIVE DISPATCH)

STANFORD UNIVERSITY, Nov. 3.—Coach Glenn Warner with twenty-five members of the Stanford football squad will leave Palo Alto tomorrow night for Seattle, where they meet the Huskies under Enoch Bagshaw next Saturday at the University of Washington Stadium. And Warner, as he prepares for start at right half. Nevers was the final test before the big game with California, is still where he was at the beginning of the season. He has beaten three conference football teams, and he has shown a drive never before approximated in Stanford gridiron activities. Still if you care to believe "Pop," he still has nothing but green men, hardly anything worth mentioning save Nevers in the way of strength, and he has to show all kinds of improvement if he expects to beat the Huskies.

Warner does admit that he has a "chance" to win over Washington. But the Cardinals have seen enough in the last three conference games. The feeling is prevalent that when Stanford beat U.S.C. her eleven knocked over the most serious contender outside of California.

Improvement in all departments of the Cardinals game is evident. The line is improving, particularly on offense, and its defense is not weak. The backfield is by far the most wonderful thing that has happened in Card football for generations.

## NEVERS NOT ALL

The victories over the Oregon Aggies and Oregon showed Nevers' great strength, while Nevers was in the game, but, and here is the real important thing, with Nevers out of the game the Warner drive went right on. The four halfbacks, all on a par, and all possessed of various abilities, enable Warner to use the Nevers threat without using Nevers. Big Ernie doesn't have to carry the ball all the time now. Hyland, Hill, Bogus and Murphy have been doing a lot of things, and in each game one or another of these backs shows ability in new phases of the attack.

Murphy was introduced as a forward passer during the 25-to-13 victory over Oregon. Hyland was brought forth as a young man who can gain yards from scrimmage as well as from safety position. Hill turned in great all round offensive and defensive work against O.C.C., but was not even used in the battle against Oregon. Hyland, incidentally, and this is no mere "puffing" statement, has convinced the local sports "experts" that he is a football suit hereabouts. "What goes on the field of the game back of Nevers, but one yard to back for touchdown."

## DEEP-SEA FISHING IS REPORTED GOOD

Followers of deep sea fishing are enjoying the latest and longest season in years, according to reports turned in at the B. H. Dyer Company. A great many halibut and some albacore are being caught. It is long past the season for albacore but the continued fair weather has kept the fish in local waters. The last of the barracuda and yellowtail schools have gone into Mexican waters, although a lone barracuda is picked up now and then. Many fishermen are also going out for lobsters and the catches are reported to be heavy.

Baptist Union Pledges Fight  
for Extermination

Nine-tenths of People Held  
to be Fundamentalists

Liberal Views of Methodist  
Church Assailed

[REUTERS DISPATCH]  
CHICAGO, Nov. 3.—With a loud  
“amen” fundamentalists from  
north, south, east and west today  
pledged themselves to wipe out  
modernism or see their own views  
exterminated in the attempt.

The action was taken by the  
missionary congregation of the Ba-  
ptist Union of North America, here.  
Chicago Gospel Tabernacle, here.  
The union is bedrock fundamen-  
talist.

“More bitter battles than we  
have yet experienced,” according  
to Dr. W. B. Riley of Minneapolis,  
“are ahead of us. It is a battle to  
the death.”

“Nine-tenths of the people of the  
nation are still fundamentalist,”  
was the belief expressed by Dr. Ri-  
ley, who is of Irish descent, raised  
in Kentucky, and now a resident  
of Minnesota.

“Being nice to the modernists is  
like Woodrow Wilson fighting the  
Germans with a typewriter,” was  
the militant declaration of Dr. J.  
Frank Norris of Fort Worth, Tex.  
His opinion was greeted with ap-  
plauding laughter from his audi-  
ence.

Modernism of the Methodist  
church was given a decided rap  
when Lloyd Bledsoe, a resident  
of Fort Worth, was introduced  
by Dr. Norris as a “living triumph  
of fundamentalism.” Bledsoe, who  
declared in open forum that he  
had tired of the Methodist ma-  
chine and modernism, was bat-  
tled six weeks ago by Dr. Norris  
in Fort Worth.

Dr. Benjamin Chapman

[BY A. P. MIGHT WIRE]  
WASHINGTON, Nov. 3.—Mem-  
bers of the Italian and American  
debt commissions in the absence  
of formal conferences today took  
advantage of the opportunity to  
get more thoroughly acquainted  
with details of problems confront-  
ing them in the effort to reach an  
agreement for funding Italy’s war  
debt.

There were unmistakable signs  
that members of the American  
commission had arrived at defi-  
nite conclusions as to the maxi-  
mum to which Italy can be expected  
to go in terms. The indications were  
that in arriving at these conclu-  
sions the Americans had met with  
no surprises in considering the  
statement of Italy’s economic and  
financial situation and outlook  
submitted yesterday in connection  
with statistics independently ar-  
rived at by American experts.

Later studies have represented  
conclusions not far from those  
contained in the twenty-one docu-  
ments which Count Volpi, the  
Italian Finance Minister, laid be-  
fore the first joint meeting of the  
commission as the basis for his  
group’s negotiations.

On the strength of the indica-  
tions that there was something of  
an understanding among both  
commissions as to minimum and  
maximum capacity of Italy to pay,  
reports arose that negotiators  
would require little time to con-  
clude an agreement.

**CAUSES OF  
CLAIRMONT

Word “Idiot” Applied by

Count’s Slander Action

[REUTERS DISPATCH]  
SAN FRANCISCO, Nov. 3.—De-

father publicly announce her mar-  
riage, which was accomplished by  
an elopement, and the appellation  
“idiot” when her distinguished sire  
did not indicate his intention of

events that resulted in the \$100-  
000 slander suit by Count Robert  
de Clairmont against George Aguilar,  
cousin of the Countess de  
Clairmont, who is the daughter of Don  
Francisco Duena.

Such is the statement made to-  
day in the answer filed in Superior  
Court by Aguilar, a coffee mer-  
chant of wealth, who denied he  
slandered de Clairmont by calling  
him a blackmailer.

The suit was filed in July of this  
year and the social select immedi-  
ately recalled that Count de  
Clairmont created a furor in San  
Francisco when he visited here  
from France in 1922. He created  
another furor when he eloped  
from Pasadena with the beautiful  
daughter of Mr. and Mrs. Fran-  
cisco Duena, Miss Edelmira Du-  
ena and her sister, Coralia, who  
became the wife of Jennings J.  
Phillips, Jr., of this city, were  
social favorites here and the elope-  
ment was a much-discussed af-  
fair.

Aguilar says the only person to  
whom he ever repeated what he  
had heard of de Clairmont was  
Mrs. Phillips and that it was she  
who spoke to Don Francisco on  
the memorable day when the  
Countess called her father an  
“idiot.” Further, Aguilar avers in  
his answer, Mrs. Phillips was talk-  
ing with her sister when the  
Count’s character was disparaged.

**ALL-NIGHT WAIT TO  
TAKE DURKIN FUTURE**

[BY A. P. MIGHT WIRE]  
CHICAGO, Nov. 3.—Chicago de-  
tectives, who waited all night with  
steel shields, shotguns, bombs and  
pistols to stop a farmhouse in  
Lake County, Ind., where Martin  
Durkin, slayer of two detectives,  
was thought hidden, had no suc-  
cess for their pains. Durkin was  
not in the house when it was raid-  
ed at dawn. Three men who  
said they knew the escaped slayer  
told the cordon of armed of-  
ficers that they had seen Durkin  
enter the house shortly after mid-  
night.

**PIPE LINE PLANNED**

[REUTERS DISPATCH]  
COMMERCE (Tex.) Nov. 3.—  
Construction of a natural gas pipe  
line from Dallas to Commerce,  
about seventy miles, is under con-  
sideration by the Lone Star Gas  
Company, according to F. E. Con-  
way, secretary of the Chamber of  
Commerce, who has returned here  
from a conference with officials of  
the company. The cost of the  
proposed pipe line will be approxi-  
mately \$1,000,000.

**Why It Pays To Buy  
John Wright’s  
TWO PANTS SUITS**

Two Pants Suits made to measure  
by John Wright are made to your  
own measure, cut by expert cut-  
ters and fitted to you. We guar-  
antee you a perfect fit. No matter  
how you are built, we can fit you.  
That is our business. Some of the  
biggest business and professional  
men buy their clothes from John  
Wright.

In a doctor’s suit what are the re-  
quirements considered important?  
The nature of a doctor’s work is a  
combination of activities that  
make him want clothes that, first  
of all, give him a comfortable  
feeling. At the same time he does  
not want that loose and baggy  
look ordinarily linked with the  
easy fit. Come to John Wright  
and get what you want.

You know as well as I do that two  
pants suits last longer and, be-  
sides, you have your choice of or-  
dering the extra pants long knick-  
ers, golf, riding or any style you  
want. That is the privilege you  
get at John Wright’s Two Pants  
Suits store. Come to the second  
floor at 706 S. Hill St. and see for  
yourself this splendid establish-  
ment.

Come upstairs to my 2nd floor location where you can buy  
a suit with two pairs of pants at either \$34 or \$44. You can  
choose your suit from one of the largest stocks on the Pa-  
cific Coast. You have your choice of any style you want.  
A John Wright label in your suit means perfect satisfaction.

We want you to know that John Wright buys all his mate-  
rials direct from the mills. We have our own workroom.  
John Wright two pants suits are guaranteed to fit and  
please you in every respect. John Wright does more busi-  
ness than any tailor shop in L. A.

Our advertising would not pay us if our goods did not make

## CAPE HATTERAS SHOALS HINTED

Navy Will Send Vessel for Survey of Region

Reports at Variance With All Official Charts

Possible Volcanoes Blamed in Queer Disturbances

(BY A. P. MURPHY WIRE)

WASHINGTON, Nov. 3.—The possible existence of shoal water in the general region of Cape Hatteras, where charts show nothing but deep water, will be investigated by the survey ship Nautilus this month by orders of the hydrographic office of the Navy. The Nautilus is to leave Philadelphia soon after the middle of the month. Her assignment came as a result of a report by the American steamer West Helen that but twenty fathoms was encountered twenty miles off Frying Pan shoals to the southeast of Cape Hatteras when their charts showed 100 fathoms.

Naval officers said that in the last thirty years reports have been received from steamers on three or four occasions of shoal water in the Cape Hatteras region, where great depths were believed to exist.

By order of the fleet commander, he was ordered to make soundings. The location was in the Gulf Stream, where heavy atmospheric conditions made accurate determination of the ship's position difficult, but through extensive tests and soundings he was unable to find any shoals as reported by the British steamer.

The second day, however, with the sea calm and no wind stirring, he noticed a V shape on the water ahead, and thinking this might be caused by the Gulf Stream

## WALES TAKES ANOTHER TUMBLE

(BY CABLE AND ASSOCIATED PRESS)

LEIGHTON BUZZARD (Redfordshire, Eng.) Nov. 3.—The Prince of Wales today took his first tumble from horseback since returning to England from his South African and South American journey. The fall came in the course of an exciting fox hunt when the Prince's horse failed to take an awkward fence. The Prince was unhurt. The Prince's hunt had been chasing a fox for an hour and the hounds were in full cry. Coming to a fence with a big ditch in front of it, his horse failed to take the jump and both the Prince and his mount disappeared into the watery chasm. The royal huntman then gave up the chase and returned to London.

striking a submarine mountain, headed toward it. When almost there, the ship, which was a very staunch vessel, lurched heavily, and he saw coming toward him a wall of water thirty feet high. The tidal wave came in three successive surges, accompanied by the throwing of thousands of sea-poles as high as fifty feet, until the air was black with them.

WEATHERS WAVE  
The ship weathered the tidal wave, despite the fact that its hatches were open. Its course was continued in the same direction all night at ten knots, but the next day astronomical bearings confirmed radio compass readings showing that it had moved steadily backward, indicating that it had been heading into a current of about twelve knots. Bad weather came on and the Prometheus then went into Norfolk.

It is the opinion of Capt. Foley that the most logical explanation of the experience is that there is a submarine activity, possibly of volcanic type, in that region causing such tidal waves and raising the ocean floor in places.

The presence of so many purposes, he said, would indicate that the water there is shoal and is a breeding ground for them.

NATION'S HARD ROADS

HALF MILLION MILES

(BY A. P. MURPHY WIRE)

WASHINGTON, Nov. 3.—The Bureau of Public Roads of the Agriculture Department, estimated today that the close of this season's road construction work would bring the nation's total of hard-surfaced highways to nearly 560,000 miles. The estimate was based on reports from States and countries throughout the country.

## Gen. Butler Will Quit Police Post in Philadelphia

(EXCLUSIVE DISPATCH)

WASHINGTON, Nov. 3.—It has been definitely decided at the White House that Gen. Smedley Butler, who, for more than a year, has been detailed to command the police force of Philadelphia, must return to his duties in the Marine Corps.

The President has come to this decision despite the earnest requests of Gov. Pinchot of Pennsylvania and Mayor Kendrick of Philadelphia that Gen. Butler be permitted to remain in Philadelphia indefinitely.

REHEARING DENIED IN RINGLING CATTLE SUIT

(BY A. P. MURPHY WIRE)

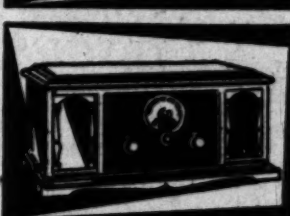

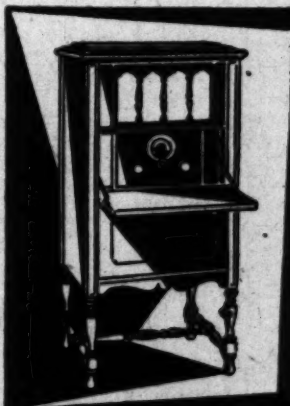

HELENA (Mont.) Nov. 3.—The Montana Supreme Court today denied an application by Richard Ringling, circus man, for a rehearing of a damages suit in which he was held liable for a judgment of approximately \$121,000. The judgment was awarded by the lower court to Diering & Cunningham, a cattle firm, with which Ringling was a partner in the Taylor's Fork Cattle Company. They alleged Ringling's handling of the interests left them without recourse.

## It's Film

That Makes Teeth "Off Color" and Imperils Healthy Gums

(Run your tongue across your teeth and you'll feel it)

Restore your teeth to dazzling whiteness, your gums to healthy whiteness this remarkably new way that dental authorities urge... coupon for 10-day test... note the amazing difference in your teeth

PERMITTING your teeth to be other than clear and beautiful is an injustice to yourself.

New methods of tooth cleaning and gum care have been found. Methods that millions are using today, largely on dental advice, with some astonishing results.

In a few days you can give a whiteness and gleaming beauty that amaze. You can firm your gums and give them that healthy coral color that you envy. Just send the coupon and a 10-day supply of the correct way will be sent.

Film hides pretty teeth and invites gum trouble

Dental science now traces scores of tooth and gum troubles to a germ-laden film that forms on your teeth.

Run your tongue across your teeth and you will feel it... a slippery, viscous coating.

That film absorbs discolorations from food, smoking, etc. And that is why your teeth look "off color" and dingy.

It clings to teeth, gets into crevices and stays. It lays your gums open to bacterial attack and your teeth open to decay. Germs by the millions

breed in it. And they, with tartar, are a chief cause of pyorrhea.

Mere brushing won't do

Ordinary dentifrices and cleaning won't fight film successfully. Feel for it now with your tongue. Note how your present cleaning method is failing in its duty.

Now new methods are being used. A dentifrice called Peppodent—different in formula, action and effect from any other. Largely on dental advice the new method is being used.

It removes that film, and the Gums

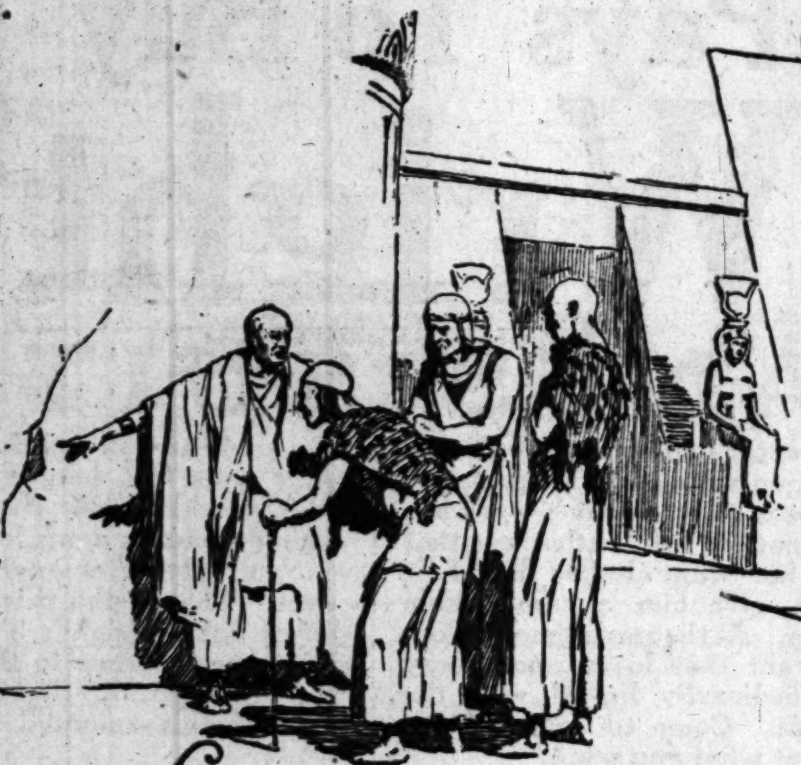

It accomplishes two important things. Removes that film, then firms the gums.

A few days' use will prove the difference. Send the coupon. Clip it now.

## When "Lifetime Plastering" meant exactly that.

In olden times, tradition tells us, "lifetime plastering" was more than a mere phrase, for if a flaw developed during the life of the plasterer, his death was the penalty; and even after the plasterer had passed on his oldest son was held responsible throughout the latter's lifetime.

"LIFETIME PLASTERING" can be secured with the same certainty today, by the builder who is willing to pay a fair price for skill and conscientious workmanship.

Materials and methods have been improved; today's plasterer has the experience of more than forty centuries to guide him. Good plastering is one of the easiest things to buy in building.

But in plastering, as in any other commodity or service you buy, you get what you pay for. Consider this fact when you invite bids for your plastering. Do not too quickly conclude that the lowest bid is the most economical, for experience proves that it very rarely is.

## "You Get What You Pay for in Plastering"

Your plasterer will give you good, honest, dollar-for-dollar value. He will give you more per dollar than the plasterer of centuries ago could give. And the work he does, if done as he wishes to do it, need be done but once.

But good plastering cannot be done at a poor plastering price. When you limit your plastering dollars, you limit your plasterer's ability to give you good work.

Allow him enough to cover the kind of work he likes to do—three-coat work, applied in proper thickness, rodged straight, true and even—the standard of good plastering for 4,000 years.

This is one of a series of advertisements on the importance of Good Plastering, published by The Blue Diamond Company solely in the interests of the building public. The entire story of Plastering—just what materials you should buy or when you should buy—how you can save money—how you can make sure an interesting illustrated booklet which will gladly be sent on request. Address: THE BLUE DIAMOND COMPANY, 1610 Diamond Street, Los Angeles.

(SPECIAL DISPATCH)  
SACRAMENTO, Nov. 3.—Gov.

letter he received from the Women's  
War, an organization of mothers,  
wives and daughters of Civil War  
veterans, of Oakland, urging him  
to refuse to grant a pardon to Miss  
Charlotte Anita Whitney, wealthy  
Oakland woman convicted of vio-

in part follows:  
“The true situation in regard to  
Miss Whitney's conviction is being  
grossly misrepresented by a num-

State, some of whom are well-  
meaning, but entirely ignorant of  
the facts, the others who lean to-

activities. Those who are ad-  
vocating a pardon for her are  
doing so by representing that her  
conviction is a blow to free speech.  
“On the contrary, she was not

and still insists that she is right.  
“We have no personal feeling

## SYRIANS IN PROTEST OF SLAUGHTER

Colony in Germany Holds  
France and League Have  
Equal Share of Blame

(BY CABLE AND ASSOCIATED PRESS)  
BERLIN, Nov. 3.—The Syrian  
colony in Germany has filed a pro-  
test with the League of Nations  
against the barbarism and inhu-  
mane slaughter in Syria, for which  
France as well as the League of  
Nations is responsible.  
The protest says that the  
League has conferred upon France  
“an unnecessary and unjust man-  
date.” The protest continues:  
“The League of Nations in-  
tend to create the feeling among  
these oppressed peoples that it  
represents a rebuff to the League of  
European powers for dividing up the  
Orient among themselves and, ac-  
cording to the circumstances, ready  
to pardon each other's competi-  
tion and despotic policies.”

ALEXANDRIA (Egypt) Nov. 3.—  
A traveler arriving here from  
Damascus states that the French  
bombed three villages near  
Damascus last Wednesday in re-  
sponse for acts of brigandage.  
The French estimate that 1250  
persons were killed in the bom-  
bardment incidental to the sup-  
pression of the recent insurrection in  
the city, referred only to those  
found dead in the streets, the travel-  
er asserts, as additional bodies  
to the number of 440 were discov-  
ered in the ruins of houses.  
Lutfi Hafar, president of the  
Damascus Chamber of Commerce,  
is said to have been shot by Sen-  
galese soldiers for carrying a re-  
volver, the Senegalese being unable  
to read his permit.

## State Collects \$6,423,134 on Inheritance Tax

(SPECIAL DISPATCH)  
SACRAMENTO, Nov. 3.—Calif-  
ornia estates valued at \$140,000-  
000 paid inheritance taxes total-  
ing \$6,423,134 to the State during  
the fiscal year ended June 30, last,  
according to a report of the State  
Inheritance Tax Department, made  
public today by State Controller  
Ray L. Riley.  
The report reveals that 45,000  
estates were probated in the State  
courts in the twelve-month pe-  
riod and that 2593 of them were  
assessed under the inheritance tax  
law. The largest tax was paid by  
the Arthur Letts estate of Los An-  
geles, valued at \$18,000,000 and  
taxed for \$1,400,000.

## JUDGE APPOINTED TO HEAR MURDER TRIAL

(BY A. P. MURPHY WIRE)  
SACRAMENTO, Nov. 3.—Gov.  
Richardson today designated Su-

to sit for Judge McDaniel of Yuba  
county in the trial of Richard  
“Blackie” Ford on a charge of  
murdering Tom Reardon during  
the Wheatland hop field riot in  
1913. Judge McDaniel felt that he  
was disqualified to try Ford in  
that he had expressed an opinion  
as to the guilt of the defendant,  
and he requested Gov. Richardson  
to name a judge to sit for him.

To be delivered to San Pedro for storage by the owner of the San Pedro Harbor Light Station, San Pedro, California.  
Bids due at San Pedro to which gasoline will be delivered by 11:00 A.M.  
Bids: "San Pedro Harbor Lightship"

This U. S. Department of Commerce proposal for bids, specifying gas "similar to LIGHTNING, manufactured by the Julian Petroleum Corporation," speaks for itself!  
IT IS ONE MORE PROOF THAT LIGHTNING IS THE DOMINANT QUALITY GAS IN CALIFORNIA TODAY.  
Lightning costs more to produce than the BEST of other grades of gasoline. Until this week it has sold for three cents per gallon more. Volume production and sales have accomplished for Julian products what they are accomplishing in the automobile manufacturing business—the consumer is being given QUALITY products at QUANTITY prices.  
You have the chance on these cool mornings to buy LIGHTNING at any Julian pump for only 1 1/2 cents above other grades—18 cents per gallon!  
And you get:  
**THE ONE WINTER GAS!**  
INSTANT STARTING ON CHILLIEST, SNAPPIEST MORNINGS.  
Service Stations Everywhere!  
20 per cent, or better, mileage.  
20 to 33 1-3 per cent more power per gallon.  
Higher speeds; snappier get-away; sweeter running motor.  
NO CARBON TROUBLES; no sticky valves; no knocks.  
LIGHTNING, the super-fuel, is bringing to thousands of California motorists the most amazing motor performance they have experienced; AND IT IS RADICALLY REDUCING THEIR UP-KEEP AND MAINTENANCE CHARGES.  
DRIVE TO A JULIAN PUMP TODAY. TRY LIGHTNING ONCE. AND YOU WILL ALWAYS WANT LIGHTNING IN YOUR TANK.

### VOLCANOES OF ALASKA ERUPT

Great Activity Reported in Aleutian Islands

Five Mountains Buried by Clouds of Smoke

Disturbance Most Violent Since Days of 1912

(BY A. P. MONT WIRE)

SEATTLE, Nov. 3.—The cutter Algonquin of the United States Coast Guard reported here today the greatest volcanic activity in the Aleutian Islands, which stretch across the north end of the Pacific Ocean, since Mount Katmai on the peninsula, 300 miles east from the Aleutians erupted in 1912.

Lieutenant-Commander C. F. Howell, commanding the Algonquin, said that the five peaks, one of which is Katmai, are buried in clouds of smoke which hang over the craters in mushroom-shaped halos.

The Algonquin, which departed northward June 5, last, on service with the Serrano Sea patrol of the coast guard, returned here last night.

**HAVE BEEN QUIET**

The Katmai eruption of 1912, which began June 4 with the emission of clouds of dust and attracted attention throughout the world by the depth of ashes deposited over a wide area, including the decks of ships in the North Pacific Ocean, in Kodiak, 100 miles away across Shelikof Strait, this ash was three feet deep.

"The volcanoes of western Alaska and the Aleutian Islands have been comparatively quiet since the Katmai eruption," said Howell. "I was particularly impressed with the volume of smoke issuing from Makushin. I learned from the natives that there had been no earthquakes the last year, and the activity of the volcanoes is probably caused by a disturbance near the center of the earth."

**PEAKS IN ACTION**

The peaks in action include Pavlof, on the Alaska peninsula, 210 miles southwest of Katmai, and Vesudof, in the middle of Unalaska Island, 275 miles southwest of Pavlof. The other two are between Pavlof and Vesudof. They are Makushin and Shishaldin, on Unalaska Island.

"Makushin is the most active," added Howell. "More smoke is coming from it than I have seen previously in the twenty-three years I have been cruising to Alaska. This smoke is more dense and more intermittent."

The Algonquin went as far as Attu Island, the extremity of the Aleutians, 600 miles from Kamchatka peninsula.

**ASK LEASE IN MUSCLE SHOALS BID**

New York Group Seeking Long-Term Offer Rental of \$2,000,000 Yearly

(BY A. P. MONT WIRE)

WASHINGTON, Nov. 3.—Fred C. Hephburn, former vice-president of the Penn Public Service Company, and a group of New York men, have submitted a bid for the operation of Muscle Shoals under a fifty-year lease. They guarantee to produce all fertilizer that the market will consume with or without profit at an annual rental of \$2,000,000.

The bidders agreed upon a \$11,000,000 corporation to take over all of the government's holdings at Muscle Shoals. In addition to manufacturing fertilizer they said they would produce other chemicals.

The majority report of the Muscle Shoals commission stipulates that ninety days after passage of necessary legislation, the government should begin operation of Muscle Shoals. If a satisfactory private lease has not been accepted.

WASHINGTON, Nov. 3.—President Coolidge, it was said today at the White House, believes members of his Muscle Shoals commission will be able to compose their differences so as to submit a unanimous report as to what should be done with the properties.

Chairman McKenzie of the commission has advised the President that majority and minority reports may be submitted, but the President understands that these differences concern minor details. He believes also that the commission's report will be such that it will receive his own full support and that of Congress, although he has not received detailed information concerning it.

**Denies Part in Conspiracy for Film Monopoly**

(BY A. P. MONT WIRE)

WASHINGTON, Nov. 3.—The Saenger Amusement Company, with headquarters in New Orleans, which has been named in the complaint of the Federal Trade Commission against the Famous Players-Lasky Corporation, and affiliated companies charging a conspiracy to monopolize the motion-picture industry, has filed a brief with the commission denying part in any such conspiracy.

When the complaint was issued in 1933 by the commission, Famous Players had 40 per cent interest. The Saenger company, which serves Louisiana, Mississippi, Arkansas and other Southern States with motion-picture theaters, but recently Famous Players has disposed of that interest in the Saenger company was asserted, was not a party to the sale of the stock to Famous Players, which acquired it from individuals, while the company was attempting to purchase it itself.

### Oppose Landing of Riff Air Force in Neutral Zone

(BY CABLE AND ASSOCIATED PRESS)

TANGIER, Nov. 3.—Three airplanes piloted by American aviators made a landing in the Tangier international zone today after having dropped sixty bombs on Sheshuan, which is in the hands of the rebel Moors.

There is a strong feeling in Tangier that the aviators should leave the neutral territory of this international zone at the earliest opportunity in accordance with the spirit of the Tangier convention of 1923.

The population of Sheshuan is made up mostly of noncombatants. Its people formerly were strongly pro-Spanish, but the frequent bombardments of this open town have led many to believe that the original cause of the bombardment of Tetuan, the capital of Spanish Morocco, by the Rifians as a measure of retaliation.

**FRENCH HELLS COMING BACK**

(BY CABLE-ASSOCIATED PRESS)

PARIS, Nov. 3.—Real French heels are coming back, not quite so high as long ago, but yet a far cry from the low, athletic type heel of recent years. At least so say the manufacturers of feminine shoes, and already the style has spread to England. The heel will be about two inches in height. Some of the evening wear shoes change color when viewed at different angles.

### DETROIT HIT AS DRY HEAD RESIGNS JOB

(BY A. P. MONT WIRE)

DETROIT, Nov. 3.—With the parting thrust "there is something radically wrong with law enforcement in Detroit," A. B. Stroup, deputy administrator in charge of Federal prohibition forces here, resigned today to enter the insurance business.

"I can say without reservation," the retiring deputy added, "that Detroit is the wettest city I have ever assigned to. I have worked in several parts of the country and observed conditions carefully, and I can say without hesitation that nowhere else is the law so openly violated as here."

The announcement startled local political circles. Vice and crime conditions and liquor law enforcement stood out as issues in the Mayor's campaign decided today. Mr. Stroup's farewell statement emphasized and detailed conditions, he states, exists in this city, outside of the law.

"Where the fault lies I do not know," he said. "People may ask why I did not correct these conditions. The answer is: Such conditions do not fall within the jurisdiction of my department."

"I have talked with many patrolmen, and I think they are honest and eager to enforce the law, but still the blind pigs and disorderly houses flourish."

In 1921, Stroup was appointed a supervisor of Federal prohibition agents and established at El Paso, Tex., to supervise agents in Texas and New Mexico. He later was transferred to California, to Jacksonville, Fla., commanding agents in Florida, North Carolina, and Virginia, and prior to his transfer here, worked in the New England States from the Boston office.

Stroup paid tribute to churches, schools and law-abiding citizens. "That is what makes the thing so hard to understand," he said.

### BELIEVED FIRE AT NEIGHBOR'S

Lodi Citizen Instead Finds Own Residence in Flames

(EXCLUSIVE DISPATCH)

STOCKTON, Nov. 3.—Looking out of a window at his home, F. O. Hale, city trustee at Lodi, thought he saw a neighbor's home on fire. He rushed to the street, turned in an alarm and then returned to his home to find that it and not his neighbor's was threatened by flames.

The reflection of the fire in the neighbor's window caused the illusion.

### Reds Laud War Commissar in Cemetery Rites

(BY CABLE AND ASSOCIATED PRESS)

MOSCOW, Nov. 3.—Gen. Mikhail Frunze, Soviet Russia's young war minister, who died Saturday after an operation, was buried today in the revolutionary martyrs' cemetery before the historic Kremlin with impressive ceremonies.

As the red-draped coffin was lowered into the grave in the snow-covered plot behind the tomb of Lenin, every garison within the Soviet federation fired a salute of fifty guns.

The Soviet's greatest orators, using the top of Lenin's wooden mausoleum as a tribune, extolled the character and virtues of the late war commissar, whom the Bolsheviks regarded in a special sense as the conqueror of Admiral Kolchak, Baron Wrangel and other anti-red military leaders.

### Shell Director Sees No Sign of Oil Exhaustion

(BY CABLE AND ASSOCIATED PRESS)

LONDON, Nov. 3.—Sir Henri Deterding, director of the Shell Oil Company, does not agree with the expert testimony of Sir Richard Redmayne before the coal commission that America's oil supply will be exhausted within twenty-five years.

"A half-dozen years ago some authorities predicted that the world's oil supply would be greatly reduced in three years, but the opposite occurred," Sir Henri said in an interview with the Evening Standard.

"When prices are low, the search for oil ceases," he added, "but when prices rise, the search is renewed and the supply augmented. This will probably continue indefinitely."

**CASINO READY FOR GAMBLERS**  
Monte Carlo Finishes Up on Summer Housecleaning  
Roulette Rooms Enlarged to Accommodate Visitors  
French Resorts Give Up Hope of Capturing Crowds  
[BY CABLE AND ASSOCIATED PRESS]  
MONTE CARLO, Nov. 3.—Monte Carlo has finished its summer housecleaning and brighter, gay than ever is ready to receive the thousands of visitors during the coming season.  
Important alterations have been made in the casino, the most striking of which being the enlargement of the popular "roulette" rooms at the expense of the exclusive "baccarat" salons. The new management—which took charge a little over a year ago—has realized that more money flowed into the coffers of the casino from the tables where a five franc bet may be made than from the fashionable inner rooms, where a 100-franc wager is looked upon with some disdain by the blasé croupiers.  
**HUGE PROFITS MADE**  
Out of the gross receipts of 110,500,000 francs taken in at Monte Carlo during the last year, more than 75,000,000 francs have been paid out to the croupiers.  
Roulette is the main reason that attracts visitors to Monte Carlo. The Casino at Cannes, under the management of Eugene Cornu, the "king" of Deauville, has been competition for Monte Carlo since the war. The Cannes Casino's receipts reached a little over 60,000,000 francs last year, but Cornu

has given up hope of ever catching up with Monte Carlo.  
"Players get tired of baccarat and roulette," Cornu said. "They will spend 200 or 300 francs to run over to Monte Carlo from Cannes and Nice, just to get a chance at the roulette."  
**FRENCH BAR ROULETTE**  
Casinos in France are not permitted to operate roulette wheels and like Cornu, the proprietors of the gambling plants at Nice, Menton and other Riviera resorts feel that no real competition can be made to Monte Carlo, as long as the principal enjoys the exclusiveness of the roulette privilege.  
The Monte Carlo expenses in the last fiscal year amounted to less than \$5,000,000 francs, leaving a net profit of \$1,876,219 francs, two-thirds of which only were paid out in dividends to the shareholders. They received 400 francs as a dividend for a 500-franc share, nominal value.  
The balance of the money was expended in the construction of a new building for the installation of the Sporting Club; a new cinema house and theater and the erection of a summer casino at La-Valette. Ten new tennis courts have also been set out, six at the Tennis Club and four at the Comdamine.  
**Congress Body to Get Postal Earning Report**  
[BY A. P. STONY WIRE]  
WASHINGTON, Nov. 3.—A special meeting of the joint congressional committee investigating the operation of the new postal rates has been called for Monday and Tuesday to receive a report of the Postoffice Department showing the earnings on the various rates.  
Chairman Moses has not decided on further procedure after the two-day session, but the committee is expected to submit recommendations for permanent revision of the postal rates soon after Congress convenes.

**PERSIA REVOLT HITS RUSSIA**  
Cordon Around Land Ruled by Reds Now Complete Excepting for China; Soviets Worried  
[BY CABLE—EXCLUSIVE DISPATCH]  
LONDON, Nov. 3.—The Persian revolution is seen as another important triumph for British diplomacy and a blow to Russia, around which a cordon is now almost complete. The only important link remaining to be forged is China, and this has not been going too well for the Bolsheviks.  
"Coming after the Locarno treaty, where the detachment of Germany from Russia was quite as important as its reconciliation with France, the British prestige has never stood higher in Europe."  
The British are cognizant of every move in the Persian game. The former Shah, who spent all his time in European pleasure resorts, was not actively a pro-Bolshevik, but was in the hands of the party in Persia, which was closest in touch with the soviet. Riza Khan, the new Persian King, who has taken the name of Pahlavi, has been friendly with the British and had been planning the coup d'etat for some time.  
So far as Europe and the Near East is concerned, Russia is now isolated and reports are being received both in London and Paris that it is displaying great anxiety over the situation. M. Tchitcherine, the soviet Foreign Minister, is due in Paris in a week or two to confer with Foreign Minister Briand, but it is really believed he is going to appeal to France to intervene in Great Britain on Russia's behalf.  
A couple of weeks ago the alarm was so acute that the Moscow garrison was virtually disarmed, only six rifles being left with each company, these being in the hands of trusted Communists.

**PERSIA PREPARES TO CALL NEW ASSEMBLY**  
[BY CABLE AND ASSOCIATED PRESS]  
LONDON, Nov. 3.—A dispatch to the Morning Post from Teheran, Persia, says the government is busy drafting regulations for convening the constituent assembly, ordered when the Shah was deposed. The assembly is expected to meet within a month and it is virtually certain that Premier Riza Khan will be elected Shah. Finance Minister Faruqi has been appointed acting Premier.  
**Passengers on Berengaria Hurt by Severe Gales**  
[BY CABLE AND ASSOCIATED PRESS]  
CHERBOURG (France) Nov. 3. Fifty or more passengers landed from the steamship Berengaria today with bandaged heads, arms in splints or sprained legs. They were injured on the voyage in the most terrific storm, in the captain's estimation, the ship had ever encountered.  
The tempest struck the Berengaria last Saturday and lasted twenty-four hours.

**CONVICTS' EARNINGS REVEALED**  
Report Shows Sums Paid Inmates of Three Prison Road Camps  
[EXCLUSIVE REPORT]  
SACRAMENTO, Nov. 3.—Convicts working in the three prison road camps, which are under the jurisdiction of the State Highway Commission, earned a gross sum of \$922,888 from August, 1924, to September 30, last, according to an audit report, compiled by William Schielp, Superintendent of Accounts of the State Board of Control, and made public today.  
Under the pay law, expenses for operating the camps, amounting to \$624,648 were deducted, leaving an average of 28 1/2 cents a day per convict. The maximum net salary allowable is 75 cents per day. Out of the earnings, \$21,585 was allotted, according to law, to dependents of the prisoners.  
There were 581 prisoners in the camps on September 30, last, and the average monthly per capita expense of each was: Crescent Camp \$37.92; Briceburg, \$37.37 and Bakersfield, \$38.40.  
Twenty women and several hundred men are studying automobile construction and repair at Le-

## ATTENTION— Salesmen and Salesladies

San Diego is wonderful!

Opening two months ago with a small organization, my associates and myself have been "feeling out" the market. We've been amazed at the total of good, clean business closed, and at the buying power manifested.

The ground hasn't been scratched yet, and I'm now enlarging the force to meet the "hot-hunger" that has already developed.

Point Loma, where we are operating, is potentially the most beautiful residential district in California. We control the choicest properties on the point and are selling them at prices so low that sales resistance is practically eliminated. Values are increasing so rapidly that you are certain to build up a clientele of profit-taking buyers.

No room in the organization for any "one-timers," and if you haven't been accustomed to making \$1000 a month in normal times, we can't use you, but if you are a real producer and want to get in on the most startling sales campaign in the State, come to our main office, 1101 Pershing Square Building, promptly at 10 a.m. (No interviews after that hour.) Either myself or our sales manager, Mr. Grindlay, will talk to you.

Noticias de Washington

WASHINGTON, Noviembre 3.—Dijose en la Casa Blanca que se tenía la esperanza de que las contribuciones se redujeran en \$300,000,000.

La comisión de presupuestos de la Cámara clasificó ya sus audiencias, y está ahora estudiando una nueva ley de ingresos.

En el Tribunal de Apelaciones del Distrito de Columbia se oyeron los debates relativos al proceso por soborno instruido contra Doherty y Fall.

Nagelski al general brigadier Smedley Butler la prórroga de su licencia en el cuerpo de Infantería de Marina, para que pudiera seguir sirviendo como jefe de la policía de Filadelfia.

El consejo de guerra de "Hittchell" convino en convocar a un gran número de testigos de la defensa, y levantó la audiencia hasta el lunes próximo.

Tormentosa Elecciones en Kentucky

LOUISVILLE (Kentucky) Noviembre 3.—Disturbios surgidos en el calor de las elecciones de hoy originaron la muerte de tres individuos, cuando menos, y las heridas de otros varios, según noticias llegadas aquí hoy por la tarde.

Uno fue muerto en Whitesburg, y dos cerca de Harlan, en batallas campales, en las que hablaron libremente las pistolas.

Los asesinos en la ciudad de Nueva York, James J. Walker, candidato demócrata, fue elegido hoy alcalde de la ciudad de Nueva York, por la aplastante mayoría, pues obtuvo muchísimos más votos que todos los demás candidatos reunidos.

Este resultado ha sido una brillante victoria para el gobernador Smith y para Tammany Hall. La ventaja que le sacó Walker al candidato republicano, Frank D. Waterman, sube como a 400,000 votos, según cálculos hechos sobre los primeros escrutinios, y parece probable que el resultado final arroje en favor del candidato electo un margen superior al de 417,000, que obtuvo el alcalde Hyman en su reelección de 1921, y con el que sentó un record.

La Revolución de Persia es un Golpe para Rusia

LONDRES, Noviembre 3.—Considerase la revolución persa como otro importante triunfo de la diplomacia británica, un golpe para Rusia, alrededor de la cual se ha puesto un cordón, que ya está casi completo. No falta más eslabon por forjar que el de China, y en dicho país no les ha estado dando muy bien que digamos a los bolcheviques.

Como esta cuestión de Persia ha venido después del tratado firmado en Locarno, donde Alemania se desprendió de Rusia, paso que fue tan importante como su reconciliación con Francia, el prestigio británico no ha estado nunca en Europa en tan alto puesto como lo está ahora.

Mujer que se Suicida en el Océano

Ayer se descubrieron en la playa que está al norte del Club de Yates de Santa Mónica, un sombrero, una falda y un abrigo de mujer, juntamente con algunos objetos pertenecientes a la duéña de esas prendas, y previa investigación del caso, la policía ha llegado a la conclusión de que la desaparecida bañista se privó de la vida arrojándose al mar.

Por el examen de la ropa no ha podido identificarse a la suicida, y ayer estaba la policía recorriendo las listas de personas desaparecidas en estos días, para ver de encontrar algún dato con que poder identificar a la mujer.

Se encontraron dos pañuelos en la bolsa de la chaqueta, y ambos tenían en las esquinas el nombre de "Charlotte" escrito con lápiz indeleble. También el pañuelo había sido escrito; pero estaba tan borrado, que no pudo decipherarse.

Gerald (knowing much at nine years, but wishing to know it all):

"DAD, WHY DO THEY CALL THIS A CLUB CAR?"

Father (a confirmed wisecracker):

"BECAUSE SO MANY PEOPLE IN IT DRINK CLICQUOT CLUB GINGER ALE. WHICH WILL YOU HAVE, YOUR OLD FRIEND THE GOLDEN, OR THE NEW PALE DRY?"

Perhaps Pale Dry Clicquot appeals more to the grown-up taste than to youngsters; it is so delicate, so subtle—a true Sec drink. Yet many children like it as much as their old pet "regular" Clicquot Ginger Ale. Some people even mix the two to suit their mood. The Clicquot Club Company, Millis, Massachusetts.

Price Question Enters After  
Boom Starts

Advance in Motor List Taken  
to Illustrate

BY PAUL WILLARD GARRETT

(EXCLUSIVE DISPATCH)

NEW YORK, Nov. 3.—In periods of real estate depression, last year's boom in the country in search of properties that nobody wants at the moment but which, in their opinion, a good many people will want when true values are more generally understood.

Such buyers at first devote their time primarily to a study of intrinsic values and secondarily to prices asked for particular pieces of land. Believing that values are certain to rise above the depressed levels, the speculators seek to extend their holdings before the upward starts. When prices rise they become more cautious and finally reach a point where to them the main consideration is one of price, not one simply of intrinsic value.

It is the same way with the stock market, but not everyone seems to see that. At the beginning of a bull market in stocks, wise men of wealth accumulate in great numbers. They are not in their opinion are destined to move upward as development proceeds. Believing that the stocks of a certain group are generally low, these speculators do not interest themselves so much in the technical market conditions as in the quality of the security.

TIME TO WATCH

As more and more investors see the merits of stock, the price is bid up, of course, until the time very definitely comes when the speculator changes his whole attitude toward the market. He may retain fully his confidence in the future of companies of which he holds stock, but nevertheless feels that the market has come a time when he begins to give more and less attention to intrinsic values and more and more to technical market conditions.

Unquestionably the unprecedented rise in motor shares that we have witnessed this year originated in conditions that were sound. That the motor industry still is in a sound condition few would want to deny.

To some it must be puzzling, however, how the industry can be improving as rapidly as the advance in stocks would indicate. Was Hudson Motors worth \$193 a share yesterday a few minutes before the closing gong sounded at the New York Stock Exchange, if it was worth only \$117 when the opening gong rang?

TAKEN AS EXAMPLE  
Here is a stock that is selected for no reason except that its performance illustrates a technical situation that inexperienced investors should understand. Any stock that sold as low as \$33 a share earlier in 1925 and that in the course of a few months had added nearly 500 points to its price, is certain to attract the interest of the shorts. Believing the price has advanced too rapidly, persons bearish on the market begin to sell stocks they do not own. They do so in the expectation of covering their positions at lower levels, but sometimes they miscalculate and are forced to cover their positions at higher levels.

When the shorts suddenly find that they must make deliveries of stock they do not own they have no choice but to buy at any price. Yesterday's spectacular upward movement in Hudson Motors, for example, or the similar movement in Chandler not long ago illustrates a technical condition of the market that will become more general and, if you please, more dangerous as the advance continues.

**Insurance Held  
Valid on Verbal  
Policy Renewal**

The question as to whether a verbal agreement to renew a fire insurance policy is binding was settled yesterday when United States District Judge Walter C. Lindley gave judgment for \$22,316.67 in favor of Walter E. Lindley, plaintiff, in his suit against the Glenn Falls Insurance Company of New York.

The plaintiff's store at 1320 South Main street burned on April 1, 1924. Lindley's policy elapsed several days before the fire and an agent called him on the telephone and he agreed to renew the policy. He sent a check to the company but the check was not received through the mail until after the fire. It was contended by the insurance company the verbal agreement was not binding in that Lindley's signature was not affixed to the renewal policy before the fire.

Judge Lindley gave the plaintiff \$20,000 under the policy and \$2,316.67 for costs and attorneys' fees.

RESERVATIONS MADE FOR EXPOSITION SPACE

(EXCLUSIVE DISPATCH)

SAN ANTONIO (Tex.) Nov. 3.—Reservations for display space for space in the racing stables, and requests for information concerning San Antonio's International Exposition pour into the secretary's office daily from almost every section of the United States. President W. A. Wurzbach received word from T. W. Nicol, Grove City, Iowa, requesting that accommodations for a string of eight racing horses be made at the next meet. Consul-General A. F. Carrillo met in inquiry for a Mexican firm that wanted a floor of one of the exhibition halls reserved. Wurzbach said another \$5000 will clear up the 176 acres of land on which the fair is to be located. Pindus in new will finish paying this off and leave \$10,000 for improvements.

VEGETABLES SHIPPED

(EXCLUSIVE DISPATCH)

PHOENIX, Nov. 3.—The winter vegetable shipping season has started in the Salt River Valley with dispatch of a car of spinach from Alhambra eastward.

**BUSINESS PHILOSOPHY**

BY WILLIAM FEATHER

COMPETE with your possibilities; not with your neighbors. This is the advice which an old manufacturer gave to a merchant who asked him what chance a man in a small town has of getting ahead.

The manufacturer said he had noticed that most merchants in small towns were satisfied to do a volume of business that measured up with that of their neighbors.

He recommended to this merchant that he forget all about his neighbors, and begin to compete with himself, and with his possibilities. He said there was no reason why his store should not have the bulk of the trade of all persons within a thirty-mile radius. Because his neighbors had not tried to expand was no reason why he should not.

**VEGETABLE OUTLOOK**

An exceptionally strong demand for all kinds of vegetables from California, prevailing at a time when the heavy movement is just getting under way, seems to indicate a good market for the balance of the season, according to a report of the American Fruit Growers, Inc., of California. The peak movement of tomatoes is now on, and the movement of cauliflower is starting. The celery movement is about ready to start and the shipment of cauliflower will be in full swing.

The peak of the fall tomato movement is now on with average shipments running around forty cars daily. The bulk of the movement is from Orange county, and the next most important point is San Diego county. Weather conditions have been exceptionally favorable and quality is running very good. The market has remained steady at prices ranging from \$1.75 to \$2 f.o.b. for the last two weeks, and it appears shipments will be in full swing for the coming two weeks unless frost should interfere.

Shipments of cauliflower from the Los Angeles district is just getting under way. Five to ten cars are moving and shipments will increase somewhat within the next two weeks. Cauliflower now being shipped is of the Snowball variety. Weather conditions have been favorable for the production of high quality. Shipments are principally from the El Monte district. The market is steady at \$1.45 to \$1.60 f.o.b. with increasing demand and prospects of slightly increased prices in the near future.

**NEW HIGH IS  
RECORDED IN  
PACIFIC GAS**

Edison Common is Heavy  
Trader But Lower; Oils  
Generally Higher

Heavy trading in the public-utility list featured activity on the Los Angeles Stock Exchange yesterday, with Pacific Gas and Edison common leading the advance with a gain of 3 1/4 points to a new high at 134 1/4. The stock closed at 134 1/4, with a good turnover.

Southern California Edison common today was heavy order; and after opening 3/4 point lower at 143 1/4 sold back up to 145 1/4, a net loss of 1/4 point. Edison 6 per cent preferred sold off 1/4 point to a close at 97 3/4, while the 7 per cent preferred was firm at 114 1/4. Los Angeles Gas and Edison preferred sold up 1/4 point to 36 1/4, a net gain of 1/4 point, and closed at 36 1/4, a net gain of 1/4 point.

High-priced oils continued the advance, led by United Oil and Julian Petroleum preferred. United opened steady at 62, advanced to a high at 63 1/4, and closed 1/4 point higher at 63 1/4. Standard of California added 1 1/4 points to a close of 66 1/4, on the large turnover. Union Oil sold up 3/4 point to 36 1/4, a net gain of 1/4 point, while Union Associated added 1/4 to a close of 35 3/4. Shell Union moved up 1/4 to 34 1/4. Julian preferred advanced 1/4 point to 31 1/4, and the common held firm at 24 1/4.

In the bank group Bancitany Corporation was the only active stock, and advanced 3 points, to a close at 137. San Francisco Gold and trading in the mine list added 1 1/4 points to a close at 28 1/4. Gold Dust, sold off at the close to 4 1/4, lost of 1/4 point. Big Jim was steady at 13 1/4 and United Eastern at 50.

**BONDS BOUGHT FOR  
CITY SINKING FUND**

The City Council yesterday bought for deposit in its sinking funds \$1,000,000 water bonds and \$1,000,000 power bonds, as both the water and power departments stated that the funds were needed at once. The water and power departments will pay 4 1/2 per cent interest on the bonds, which will be included in the large bond sale to be held by the City Council next month.

To be dated November 1, 1925

Due May 1, 1926

Total authorized issue \$3,600,000. Principal and interest payable in United States dollars of the present standard of weight and fineness at the principal office either of The National Bank of the City of New York or of Blair & Co., in New York City, without deduction for any present or future taxes of the Government of the Argentine Nation, or of the Province of Buenos Aires. Callable at a whole at any time on 30 days' published notice at 100 plus accrued interest to call date of payment.

Bearer Notes in the denomination of \$1000

The following information has been taken from a statement furnished by the Ministry of Finance of the Province of Buenos Aires.

These Notes will be the direct obligation of the Province of Buenos Aires, and will be issued for the purpose of refunding maturing Treasury obligations issued to provide funds with which to carry on railroad construction in anticipation of the sale of long term bonds. The Province will create as security for the payment of these Notes (a) a first and paramount lien upon all collections from the Inheritance Tax, (b) a lien on the Consume Tax subject only to \$2,000,000 Treasury Notes maturing May 1, 1926, and (c) a lien on the Stamp and Judicial Taxes subject to prior charge on exceeding \$2,800,000 annually at the current rate of exchange.

The proceeds of the Inheritance Tax upon which these Notes will be a first lien amounted to about \$4,200,000 for the year 1924, and to approximately \$3,945,000 for the first nine months of 1925.

The proceeds of all the taxes pledged for the payment of principal and interest of these Notes, after allowing for prior charges, amounted to about \$12,730,000 for the year 1924 and to approximately \$6,670,000 for the nine months ended September 30, 1925. All of the above amounts are converted at the current rate of exchange.

The Province of Buenos Aires adjoins the Federal District, which contains the City of Buenos Aires, and is the wealthiest and most populous province of the Argentine Republic. It has an estimated population of 2,640,400 and occupies an area of about 17,000 square miles, or over three times the area of New York State. The funded indebtedness of the Province as of June 30, 1925, including this issue, amounted to \$182,686,000 at par of exchange.

All offerings are made when, as and if issued, accepted and received by us and subject to approval of our counsel.

NEW YORK, Nov. 3.—The railroad common stockholders apparently are not dubious over the truth of the statement that the truth of the matter is being made by the Panama Canal.

There are more fanciful than real analysis of operating results of the last few years is made. The last few years, it will be seen that the gross operating revenues of this great system have fluctuated rather widely, each year showing a different picture.

Up to 1924 has shown the annual dividend, covered by the operating revenues, of course, on investments, having been reduced to slightly over 4 1/2 per cent.

Analysis of Operating Results of Union Pacific Railway for Last Few Years Squelches Rumors of Inroads Being Made by Loss of Tonnage Through Panama Canal.

By the time the Union Pacific Railway Company's annual report for 1924 was published, the rumors of inroads being made by the loss of tonnage through the Panama Canal had been circulating for some time. The report, however, shows that the company's operating results for the year were excellent, and that the loss of tonnage through the Panama Canal had not had the effect on the company's earnings as had been rumored.

The report shows that the company's earnings for 1924 were \$11,000,000, or \$1.10 per share, compared with \$10,000,000, or \$1.00 per share, for 1923. This increase in earnings was due to a number of factors, including an increase in freight and passenger traffic, and a decrease in operating expenses.

The report also shows that the company's assets for 1924 were \$1,000,000,000, or \$100 per share, compared with \$900,000,000, or \$90 per share, for 1923. This increase in assets was due to a number of factors, including the acquisition of new property and the sale of old property.

The report also shows that the company's liabilities for 1924 were \$1,000,000,000, or \$100 per share, compared with \$900,000,000, or \$90 per share, for 1923. This increase in liabilities was due to a number of factors, including the acquisition of new property and the sale of old property.

The report also shows that the company's equity for 1924 was \$1,000,000,000, or \$100 per share, compared with \$900,000,000, or \$90 per share, for 1923. This increase in equity was due to a number of factors, including the acquisition of new property and the sale of old property.

The report also shows that the company's net income for 1924 was \$11,000,000, or \$1.10 per share, compared with \$10,000,000, or \$1.00 per share, for 1923. This increase in net income was due to a number of factors, including an increase in freight and passenger traffic, and a decrease in operating expenses.

The report also shows that the company's dividends for 1924 were \$1.00 per share, compared with \$0.90 per share, for 1923. This increase in dividends was due to a number of factors, including an increase in earnings and a decrease in liabilities.

ADVERSE LEGISLATION

AMONG all the causes of corporation losses, none deserves more consideration than the possibility of adverse legislation of Federal, State or local authorities. Certainly none is more difficult to anticipate. Law, created by man for the protection of his life and property, seems strangely destructive of the latter at times.

Yet there are certain types of securities which are to an unusual degree under the shadow of legal interference. There are certain sections of the country where such inimical action is most likely to occur. These and many other considerations must enter into all the calculations of those who undertake the task of analyzing security values.

Moody's has never been satisfied merely with the internal facts regarding a company's securities. It is the painstaking survey of every possible external factor assisted by a wide experience and extensive facilities for gathering economic and statistical information which emphasizes the unique character of Moody's Supervisory Service.
